INTUITIVE SOFTWARE

SIGNMASTER CUT+ARMS SOFTWARE

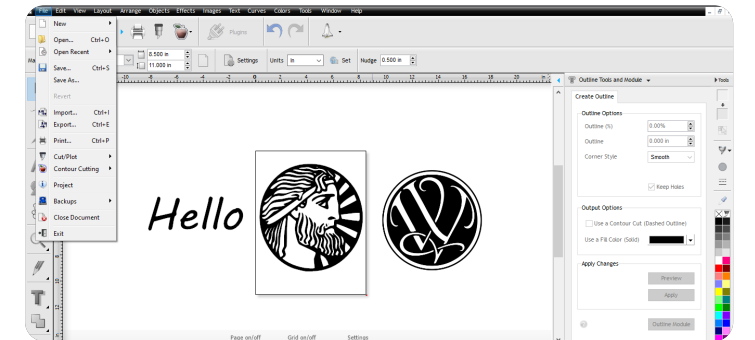

The RCP-6301 25" Vinyl Cutter comes with the easy-to-use SignMaster CUT+ARMS software. This software has hundreds of tools that can be used to create and edit images for cutting. With the SignMaster Software, you can easily turn images into cuttable designs the machine can read.

SOFTWARE FEATURES

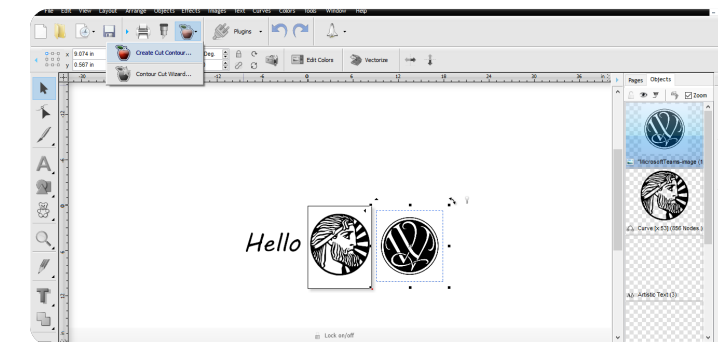

The SignMaster CUT+ARMS software has hundreds of powerful tools and features that help you easily create custom designs right on your computer.

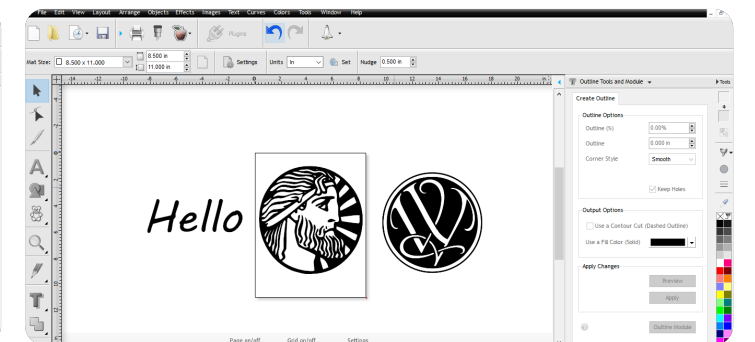

Import/Export

Upload custom artwork and images in formats like tif, jpg, png, pdf and more. You can then export your design in any format you need to open in other programs.

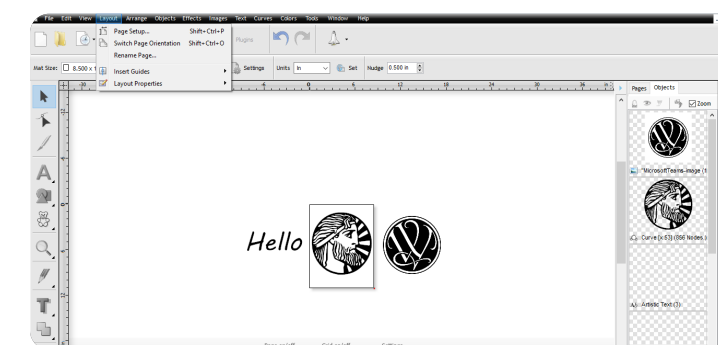

Contour Cut

Use this special SignMaster CUT+ARMS feature to quickly and accurately cut around the edges of a printed design.

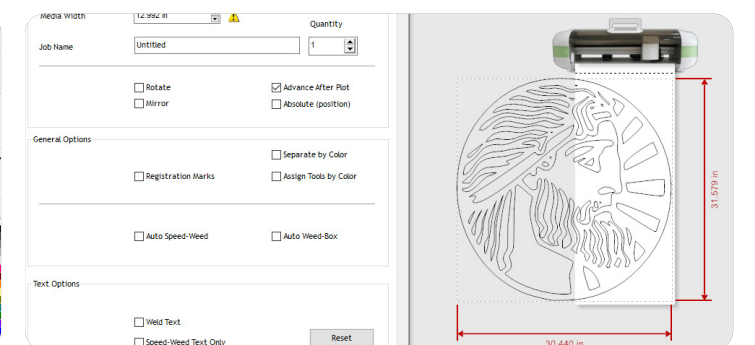

Design Tools

This software has basic design tools that allow you to create and adjust shapes, text, curves and much more.

Layout Tools

Layout the designs exactly where they need to be by adjusting the scale, size, rotation and more.

Large Design File Size Limit

With a huge design file size limit, you can work with large images without any issues and you won't be limited to only creating and cutting small designs.

STABLE CUTTING

The RCP-6301 has all the high-quality tools necessary to cut perfect designs every time. From its precise contour cutting technology to the stand and pinch rollers that provide stability for vinyl rolls of all lengths, this machine is made to create clean designs of all sizes.

ADJUSTABLE TOOLS

To ensure that you get perfectly smooth cuts every time, the RCP-6301 25" Vinyl Cutter has an adjustable cutting force and cutting speed. You can change the machine's settings based on the type of material you are cutting and easily test the cutting force at the touch of a button, so your design always comes out exactly how you want it to.

WHAT'S INCLUDED

Make cutting and plotting your projects a breeze with the helpful tools included in the RCP-6301 25" Vinyl Cutter Packages.

PRO PACKAGE INCLUDES A HEAT PRESS!
