REDEFINING PERIMETER SECURITY

PROTECT YOUR BUSINESS **WITH**

AMAROK
ULTIMATE PERIMETER SECURITY

STOP CRIMINALS BEFORE THEY GET IN WITH FORTIFEYE

FORTIFEYE integrates electric security fencing, video surveillance, and video monitoring to create the ultimate crime prevention solution for your commercial business or industrial site.

**CRIMINAL INTENT IS
NO MATCH FOR FORTIFEYE.**

MULTIPLE LAYERS PROVIDE MAXIMUM PROTECTION

FORTIFEYE integrates The Electric Guard Dog™ fence, a formidable physical electric fence, alarms, and ultra-bright lighting, with video cameras and real-time video monitoring. Together, these layers of security deter, detect, and detain even the most tenacious criminals to protect your property.

- Installed and completely maintained by **AMAROK**. You pay no upfront costs or expensive repair bills.
- The Electric Guard Dog fence stops crime before it happens and keeps would-be thieves off your yard.
- The fence, alarms, and lighting are solar-powered, so your property is always secure, even during a power failure.
- Perimeter zoning quickly identifies the location of an attempted breach.
- Cameras instantly verify the presence of a would-be intruder, satisfying police response requirements for dual verification.
- Increase peace of mind and operational efficiency by identifying and reducing false alarms.
- Completely customized to match your specific site requirements. Reconfigurable if your needs change over time.

TURN YOUR PERIMETER INTO A FORCEFIELD WITH FORTIFEYE

THE ELECTRIC GUARD DOG™ SOLAR-POWERED ELECTRIC FENCE

FORTIFEYE starts with AMAROK's Electric Guard Dog perimeter fence that incorporates multiple forms of deterrence:

**THE
ELECTRIC
GUARD DOG™**
POWERED BY AMAROK

PHYSICAL: Looming 10 feet high inside your own perimeter fencing, The Electric Guard Dog fence presents an imposing barrier on its own and carries clearly visible warning signs that the fence is electrified.

SHOCK: Contact with The Electric Guard Dog fence delivers 7,000 volts to would-be thieves. It's medically safe, but the jolt will make criminals think twice about touching it again.

ALARM AND LIGHTS: Any attempt to scale or cut the fence also triggers a blaring alarm and ultra-bright LED lights, adding another incentive for criminals to flee.

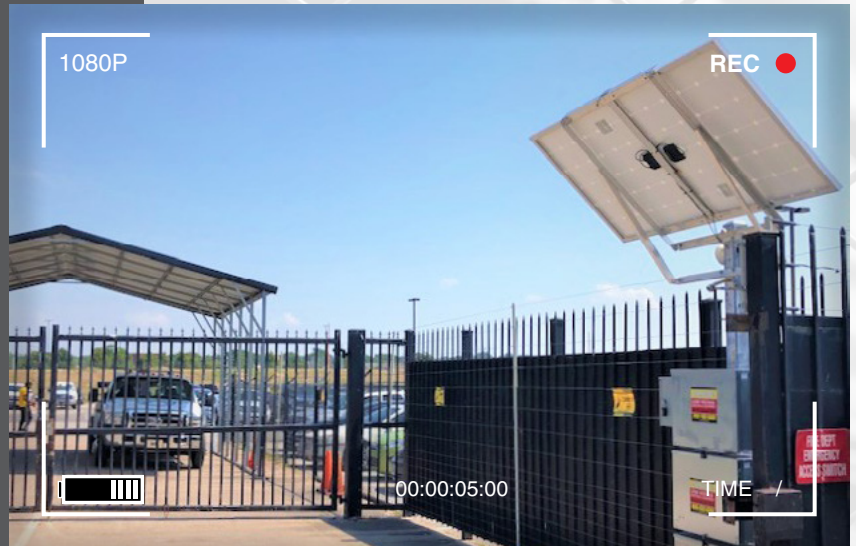

**CRIMINAL
INTENT IS
NO MATCH
FOR AMAROK
POWER.**

VIDEO SURVEILLANCE

The FORTIFEYE solution includes surveillance cameras to capture and record every second of activity in real time, from initial approach to flight.

- Live streams and recorded footage can be accessed remotely through an internet browser.
- Footage is stored on the network video recorder or server that comes standard with every installation.
- We also provide video-management software and analytics, making it easy to review, save, and share footage with law enforcement.

FORTIFEYE can incorporate a variety of cameras with varying capabilities. AMAROK will help you select the best combination for your specific needs and site challenges.

- Fixed cameras feature day and night visibility, tampering/motion detection, and memory slot.
- Pan-tilt-zoom cameras feature day and night visibility and memory slot.
- Both fixed and pan-tilt-zoom cameras include IP66-rated enclosures to protect against dust and water penetration.

REMOTE VIDEO MONITORING

FORTIFEYE includes sophisticated, real-time remote video monitoring – an absolute necessity in areas where police no longer respond to alarms without visual verification.

- Monitor your site using our mobile app or let AMAROK do it while keeping you in the loop.
- Alarms trigger live video feeds and automatically record footage.
- Police are called only when alarms are visually verified.
- False alarms are reviewed and logged into our system.

Server

Every installation includes a local network video recorder or server for processing, recording, and streaming footage.

Software

Cloud-based software provides centralized access to camera streams and recorded footage from multiple sites.

Desktop

A configurable, rich media plane can display multiple sites, cameras, and views simultaneously.

Mobile

Our app lets you easily view any camera or recorded event while on the go.

FORTIFEYE'S MULTIPLE, INTEGRATED LAYERS OF PROTECTION SECURE YOUR VALUABLE ASSETS AND PROVIDE PEACE OF MIND.
