THE RIGHT SOLUTION FOR THE RIGHT RESULTS

Every fleet faces unique challenges. With our modular product portfolio, we can help you build the right solution and configuration for your business. Powered by Machine Vision and Artificial Intelligence (MV+AI), Lytx can help expose more risk in your fleet while keeping your program efficient and manageable.

VISIBILITY

LYTX VIDEO PLATFORM ■

THE VISIBILITY YOU NEED FOR A SAFER FLEET.

Get the facts you need in minutes with the gateway to all Lytx offerings. Access video on demand*—anywhere you have an internet connection—with customizable clip lengths. It's the only solution that gives you the right video, at the right time, at the right length.

- Secure access to manage your Lytx account, programs, services, and data
 - Continually recorded video lets you quickly search and find what you're looking for
 - Ability to add auxiliary cameras
-

SAFETY

RISK DETECTION SERVICE ■

INSIGHTS HELP YOU MONITOR RISK TRENDS AND TAKE ACTION.

Monitor and manage your fleet with reports that help you spot trends that contribute to risk. Get timely event clips of moments that are important to track, plus the Lytx Video Platform. All with the freedom to take action on your terms.

- MV+AI technology can help you see and capture more risk — allowing you to more proactively address risk in your fleet
- Dashboard and insights reports to help track and monitor risk
- Machine review categorizes and presents risk across your fleet

DRIVER SAFETY PROGRAM ■

PROVEN TO CHANGE DRIVER BEHAVIOR.

Reduce unsafe driving before a collision occurs. This comprehensive solution helps you change behavior by coaching drivers with video so they can be aware of their habits on the road. Award-winning MV+AI helps detect additional fleet risk and behaviors that can be difficult to detect with traditional sensors alone.

- Programmatic approach to fleet safety
 - Highly effective coaching workflow
 - Human-validated event review
-

EFFICIENCY

FLEET TRACKING SERVICE ■

SEE THE STATUS OF YOUR FLEET IN AN INSTANT.

Oversee fleet operations anywhere. Locate, track, and manage vehicles in real time* to respond faster, maximize productivity, and optimize your field-service efficiency.

- Real-time access to fleet status
- Vehicle locations, ETA, trip histories, and more
- Custom alerts to geofencing parameters, speeding, and idling

*Subject to available cellular network coverage.

AWARD-WINNING TECHNOLOGY

Not all technologies are created equal. Whether it's intelligent triggers for risky driving events, new ways to detect drowsy or distracted driving, or custom algorithms to surface the most relevant video events, only Lytx can deliver the breakthroughs modern fleets demand.

Informed by billions of miles of driving data, millions of hours of video from the road, and validated by professional analysts, our award-winning Machine Vision and Artificial Intelligence are miles ahead of anything else in the industry. This powerful combination of analytics, experience, and technology gives fleets the precise information they need to achieve their safety goals with confidence.

WHAT SOLUTION IS RIGHT FOR ME?

Lytx offers a flexible model to help you find and customize the option that work best for you. Turn features on or off, as needed. Your solution can even scale easily as your business grows.

-  **LYTX VIDEO PLATFORM**
-  **RISK DETECTION SERVICE**
-  **DRIVER SAFETY PROGRAM**
-  **FLEET TRACKING SERVICE**

"I need video evidence in case something happens, plus the ability to find a specific incident and download the exact amount of video I want—quickly and easily."

Incident capture with video on demand

"I need a robust program that will help me improve safe driving behavior and monitor drivers for business efficiency."

Driver safety and fleet supervision

"I need to monitor the risk in my fleet, so I can decide whether to take corrective action."

Timely insights to manage risk

"I need to quickly locate, track, and manage my fleet so I can improve efficiency and service."

Real-time fleet status with video

"I need a proven way to improve driver behavior, reduce risk, and lower collision frequency."

Full program to coach drivers to safety

THE LYTX DIFFERENCE

For over 20 years, Lytx has been a leading innovator in video-based telematics and was recognised by Frost & Sullivan as the 2019 Company of the Year for video safety solutions.

Our award-winning MV+AI technology reliably exposes difficult to detect fleet risk, supported by services that are proven to help improve fleet safety metrics and improve your bottom line.
