

# RISK DETECTION SERVICE

## EMPOWER YOUR DRIVERS TO QUICKLY CORRECT THEIR DRIVING HABITS AS THEY HAPPEN—WITHOUT MANAGER INTERVENTION.

You need to protect your team and assets, but there's not enough time in the day to monitor every driver's every move. Lytx gives you a simple solution that puts the power of self-improvement in the hands of your team with driver-focused features that make it easy to get immediate results.

Lytx advanced machine vision and artificial intelligence (MV +AI) technology senses difficult-to-detect behaviors and prompts drivers to self-correct with real-time alerts. Then, drivers use check-in tools to review their own video and performance metrics, putting the power of self-improvement directly in their hands.

- ✓ Real-time audio and light alerts help drivers self-correct in the moment.
- ✓ Drivers access check-in tools to review their own video and performance metrics.
- ✓ Fast access to online video provides managers with critical evidence in minutes.

### LYTX DRIVECAM® EVENT RECORDERS

Dashcams just capture video. DriveCam Event Recorders capture actual risk.

DriveCam Event Recorders are equipped with advanced sensors that collect and process data-driven video to analyze what's happening on the road and inside the vehicle. Engineered with our award-winning MV+AI, these state-of-the-art devices are the first step in advanced risk detection, surfacing more risk than traditional telematics alone.

Visit [Lytx.com/SFER](https://lytx.com/SFER) to watch a short video about DriveCam Event Recorders.

### TECHNOLOGY THAT'S PROVEN TO WORK.

With Lytx, you get award-winning technology and an effective approach that has helped hundreds of thousands of drivers navigate billions of miles safely for over 20 years.

### READY TO LEARN MORE?

Contact your Lytx representative at 844.582.2886 or [channelsales@lytx.com](mailto:channelsales@lytx.com).

LYTX RISK DETECTION SERVICE EMPOWERS DRIVERS TO MONITOR AND MANAGE THEIR OWN PERFORMANCE WHILE GIVING MANAGEMENT THE VISIBILITY THEY NEED TO TRACK PROGRESS AND INTERVENE IF NEEDED.

Throughout their day, drivers receive real-time audio and light alerts that can help prompt them to self-correct their own habits as they happen.

After the trip, drivers check in to review their performance and watch recorded videos, enabling them to observe their behaviors for a new perspective on past events.

The Driver Profile report helps both drivers and managers track the duration of continual behaviors and the percentage of drive time those behaviors consume.

This powerful combination of real-time alerts and observational learning creates an experience that makes it easy for drivers to quickly improve their own performance – without requiring manager intervention.

### GET THE VIDEO EVIDENCE YOU NEED FASTER - ANYWHERE YOU'RE CONNECTED.

Managers can download the video they need in minutes - no waiting or tech support needed. With 24/7 online access to video, you can respond to critical events and incidents that can help exonerate drivers any time of day or night.

### OUR AWARD-WINNING MV+AI TECHNOLOGY IS BUILT ON THE LARGEST DATABASE OF ITS KIND TO HELP ENSURE HIGHLY ACCURATE RESULTS.

Lytx technology is so precise that it can reliably distinguish between these common driving habits, and alert your drivers as behaviors happen.

#### Inside the vehicle

- Handheld device use
- Seatbelt use
- Smoking
- Eating or drinking
- Attentiveness

#### On the road

- Speeding (Posted or Policy)
- Rolling stop
- Following distance
- Critical distance
- Lane departure

Visit [Lytx.com/MVAI-102](https://lytx.com/MVAI-102) to watch a short video about what makes Lytx MV+AI so precise.

Lytx DriveCam Event Recorder is a driver aid only; and is not a substitute for a safe, conscientious driver. It cannot compensate for a driver that is distracted, inattentive, or impaired by fatigue, drugs, or alcohol. Whether or not the Lytx DriveCam Event Recorder is in use, it is always the responsibility of the driver to take appropriate corrective action. In certain circumstances, the ability for the Lytx Event Recorder to issue a warning may be limited. Never wait for the Lytx DriveCam Event Recorder to provide a warning before taking measures to avoid an accident. Failure to do so can result in severe property damage, serious personal injury, or death. See [www.lytx.com/en-us/driver-information](https://www.lytx.com/en-us/driver-information).
