## Network Engagement Report

### School Percentages

## Network Engagement Report

### School Percentages

# E-School Reflections

- Team worked extraordinarily hard and has done a great job
- Strong results to show for it
- But, not good enough for 20-21
- Hybrid School will not be E-School - what got us here, will not get us there

# E-School Reflections 1-Click Down

- Moving to matrix management is on hybrid school model is key
- We are moving towards an operator in many places
- Clarity of vision, goals and theory of action
- Shared metrics and data are critical - and systems domains that produce them.

# How is Team Doing

# How is the Team Doing?

- Tired
- Energized
- More Committed than Ever
- We are better today than we were 8 weeks ago.

# Broader Context and Dates

# Broader Context

- K-12 debate consumed with re-opening decision and logistics
- Deep struggle nationally with engaging all students
- Substantial budget cuts looming for all
- Agility of charters
- Big long-term questions - little energy to answer from front lines

# Local Context

- DPS took a very decentralized approach to online school
- Two primary focuses
  - budget
  - how to logistically re-open schools
- Getting through

# Upcoming Events and Schedule

- End of School: 6/2
- Continuations: 5/28-6/2 (Virtual online)
- Graduations: 6/1 - 6/8 (Denver Mart Drive In)
- Mini-Closure for Home Office: June 11-12,15
- Network Summer Closure: June 29 - July 17
- New Staff Training: 7/28-29
- Infusion: 8/3
- First Day of School: 8/19
