ScriptRunner has made Trouble Shooter B.V. its partner in Belgium

Ettlingen, September 28, 2020: As a partner of ScriptRunner Software GmbH, the PowerShell specialist Trouble Shooter, an IT company based in Belgium, supports the leading provider in the field of PowerShell management in the distribution of its complete solution in Belgium.

The IT administrator in Belgium can also use PowerShell to automate many daily tasks and activities in IT operations intelligently, easily and securely. The experts from Trouble Shooter and ScriptRunner are convinced of this. Together, they will now introduce even more companies in Belgium to the advantages of automating and delegating with PowerShell. To this end, Trouble Shooter has expanded its PowerShell training offering with ScriptRunner consulting and implementation services.

ScriptRunner Software has quickly established itself in the German-speaking market with its PowerShell management solution. The software offers companies a holistic product for automating, delegating and controlling all activities around PowerShell. The partnership with Trouble Shooter is a consequent expansion of the ScriptRunner partner strategy, in order to open up international markets quickly.

Trouble Shooter has an excellent reputation as a PowerShell expert on its home market and supports companies with PowerShell training and automation projects. Thanks to the sales partnership Trouble Shooter can now offer its customers a professional and holistic PowerShell management solution.

„ScriptRunner will help our customers to automate, orchestrate and finally delegate their daily tasks and solutions faster to service desk teams and end users", says Bruno Buyck, PowerShell specialist and founder at Trouble Shooter.

ABOUT SCRIPTRUNNER SOFTWARE GMBH:

ScriptRunner is the #1 platform for IT infrastructure management with PowerShell. Centralizing, standardizing, automating, delegating, monitoring and controlling routine tasks frees up resources in IT operations. Administrators and DevOps teams can use and customize included script libraries or develop their own scripts. ScriptRunner allows you to securely delegate administrative tasks to users without PowerShell knowledge or appropriate rights.

ScriptRunner is used worldwide by IT teams of all sizes and industries.

Since 2019 ScriptRunner Software GmbH is an independent subsidary of AppSphere AG.
