**SAFETY FIRST**  
WEAR PROTECTIVE APPAREL  
WHEN RISK IS PRESENT

KEEP GLOVES AND APRONS  
READILY ACCESSIBLE

*Caution: Not Intended for Immersion in  
Liquid Nitrogen or other Cryogenic Liquids*

### Selection & Usage

- Proper fit contributes to product performance – a tight fit leads to thermal loss.
- Select the appropriate glove length and apron length for your specific application.
- Select **Waterproof Cryo-Gloves** for use in cryogenic atmospheres – glove fit should be loose enough to allow for quick removal if necessary.
- Select **Cryo-Industrial Gloves** when gloves are in contact with abrasive surfaces.
- Store gloves and aprons in a clean dry space.
- Periodically inspect the condition of your gloves and aprons – replace garments that show excessive wear.
