JACKSON SLOAN

“Everyone I live with is studying the same course as me, so our common interests helped us bond and settle in quickly. It’s great to have a laugh with my mates and take part in the activities put on by the Residential team; we even went away on weekend trips paintballing and go-karting.”

GEORGEENA PENGELLY

“Staying in residential accommodation has encouraged me to study more independently, but I know I can ask the Residential Team for one-to-one support with my assignments when I need it. I enjoy socialising with new people from all over the country, and taking part in the activities and parties the team organise for us.”

SAM THOMAS

“The quality of the residential support was especially important to me as I was only just 16 when I came to College. At the start of my first year, my mentor Charlotte kept a close eye on me with one-to-one support sessions, and encouraged me to take part in enrichment activities which helped me to make friends.”

WHAT'S NEXT?

If you are interested in applying to live within our accommodation you need to submit an Expression of Interest form. Please visit the accommodation pages on www.btc.ac.uk.

You will be invited to attend an interview, usually at the same time as your course interview. Successful applicants will be contacted from the end of April and asked to pay a deposit to reserve a place. Allocations are made in August in order of priority, therefore students applying to study a land-based or specialist course, or who live outside of a 30 mile radius of the College will be given precedence.
