WOOD BURNING KASTOR HEATERS

There is something very special about a wood burning sauna. Here at TylöHelo, we appreciate saunas in all their various forms and offer wood burning stoves from Kastor, renowned for its world-class quality products. Our wood burning sauna heaters are designed with optimum quality in mind. Not just in terms of physical construction, but also for optimum function. Thanks to skilful engineering we have succeeded in combining modern aesthetics, functionality and a clean burn.

Pleasure and principles

Harnessing fire for practical use is the basis of our existence. With time we have invented ever more efficient methods to get more out of fire. Once the heaters are finished, they are dressed in an elegant and polished exterior, ensuring its viewer is not left cold either.

Warranty

Kastor products are reliable and of high quality. Kastor grants a 2 year factory warranty to its wood-burning sauna heaters covering manufacturing defects. For products in public and commercial use, the warranty is valid for three months. Damages caused by incorrect use or use which is not in accordance with instructions will not be covered by the warranty.

**PRIVATE USE
WARRANTY
24 MONTHS AND
COMMERCIAL USE
WARRANTY
3 MONTHS**

Suitable for domestic use.

TECHNICAL HIGHLIGHTS

1. The flue can be connected from the top or from the back.
2. The combustion is clean and the energy efficiency ratio as high as 70%. As the flue gas temperature is kept below 600°C, you can choose a Kastor heat class T600 modular chimney for safe and easy installation.
3. The door window, made of ceramic glass, is capable of withstanding 800°C.
4. Sturdy doors.
5. High grade steel used throughout.
6. Outer mantle made of stainless zinc-aluminium alloy.
7. Adjustable legs.

KASTOR SAGA

The Kastor Saga takes wood burning saunas to new heights with 130 to 180 kg of exposed stone providing soothing heat and steam. The surface of the stones makes the heater a delightful focal point.

CHIMNEY BASKET

The Saga heater's chimney basket can hold 40 kg of stones.
Measurements: 330 x 600 x 330 mm
Item no. 289041

Wood burning heaters

Product	Item no.	Sauna volume (m³) ***	Ouput (kW)	Dimensions (mm) W x D x H	Weight heater + rocks (kg)	Flue opening, inside diameter (mm)		Front frame height (mm) paint / chrome	Distance from the back of the heater to the centre of the flue opening (mm), top connection	Safety distance to flammable material (mm)				Sauna room min. height (mm)	Max. length of fire wood (mm)
										Side	Front	Ceiling	Back		
Saga 22 dark grey	289089	12–22	16	600 x 585 x 825	115 + 130–140	115		645 / 670	150	250	500	1400	250	2300**	380

KASTOR KARHU

With its depth, air control system and reinforced door, the Karhu is a safe and strong sauna stove. The Karhu VO has a water tank on the right, and the Karhu VV has a water tank on the left (as viewed from the front)

CHIMNEY WATER TANK 22 L Measurements: 420 x 185 x 660 mm Item no. 100135. Only suitable for chimneys Ø 115 mm.

NEW!

KASTOR KARHU 20

The Karhu 20 wood burning heater, suitable for 8–20 m³ sauna rooms, is available without or with a water tank on the front. Also chimney water tank available.

KASTOR KARHU PATA

This wood burning water heater is designed to complement the other wood burning heaters of the Karhu range. It is built on the same energy efficient platform and intelligent solutions, in order to extract as much heat as possible from the least amount of wood.

KASTOR KARHU T MODELS

A fireplace heater, or tunnel heater, is a combination of a wood burning heater and a fireplace, where the heater is located in a sauna and a fireplace on the other side of the wall. So you can first enjoy the heat on the sauna side and continue the atmosphere by the fireplace in the dressing room or living room.

The fireplace outside the sauna also heats the spaces outside the sauna and keeps the sauna clean when the debris coming from the firewood does not end up on the sauna floor.

In addition to practicality, of course, the heater looks great. The beautiful lines of the heater are suitable for many tastes and sauna interiors. The careful design of the hearth and stone space makes the heater light without compromising on its excellent fire properties.
