Hello from LEGEND FLEET - 03.30.31

Welcome, and thank you for downloading our e-newsletter! In each edition, we will be showcasing certified Legend upfitters from across North America and the awesome upfit work they are doing, a product spotlight, and what we've been up to at Legend HQ. Enjoy!

UPFITTER SPOTLIGHT - VANPRO INC.

VanPro Inc. Upfit of the Month: **GENERAL CONTRACTOR VAN**

Van Pro Inc. is a growing upfitter and Legend dealer in Canada, with locations in Ottawa, and Dorval, Quebec. This featured upfit in a Ford Transit Crew Van was for a general contractor that serves the Montreal and surrounding area. The operation specializes in residential projects including renovations, electrical and plumbing. Combining work and play, this workspace is used to bring his employees to job sites and carry equipment and tools, and can also be used as a mobile office with the foldaway desk and swivel-based chairs. On the weekends, it's often used to go on road trips and carry his family. With Legend's products installed in the cargo area - the floor, ceiling, and walls are protected and are easily cleaned when needed.

Location:

MONTREAL, QUEBEC

Legend Products in upfit:

- StabiliGrip Rigid Floor
- Door Sills and Thresholds
- DuraTherm Insulated Wall, Ceiling, and Door Liner

Other Products in upfit:

- Shelving and Partition
- Foldaway Desk

PRODUCT SPOTLIGHT - HIGH-VISIBILITY GRAB HANDLES

This new product has seen an incredible uptick in popularity as fleets seek equipment that creates safer workspaces for their drivers and technicians. With an extremely grippy texture, these bright yellow sills assist drivers to easily get up into the van, even with wet gloves. It may seem like an unnecessary piece of equipment, but when drivers are getting in and out of their vehicles hundreds of times a day, it makes a huge difference to their daily workload, and ultimately, their overall productivity.

Available for
Transit and
ProMaster.

TRADESHOW SPOTLIGHT: THE MONTH OF SHOWS

NTEA's Work Truck Show went virtual for the first time ever, where we exhibited along with hundreds of industry professionals. We also attended Action's Virtual Expo, and Keystone's Virtual BIG Show.

**WE LAUNCHED OUR
LIVE DEMO STUDIO
THIS MONTH, WITH A DEBUT AT THE
VIRTUAL WORK TRUCK SHOW!**

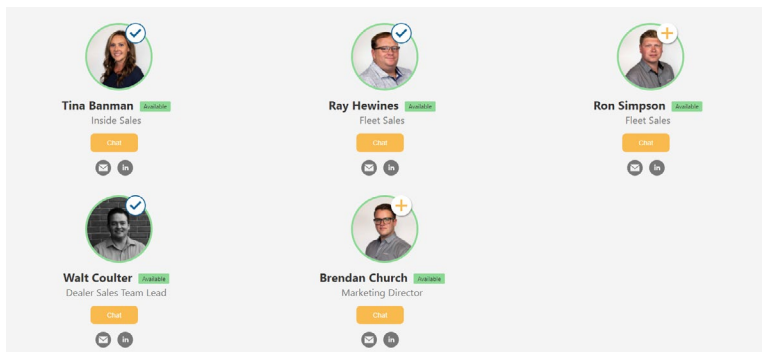

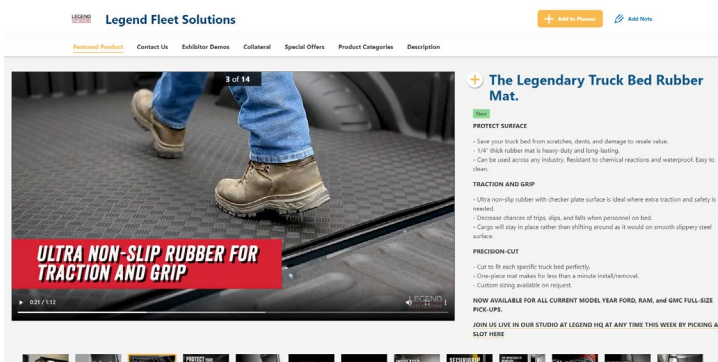

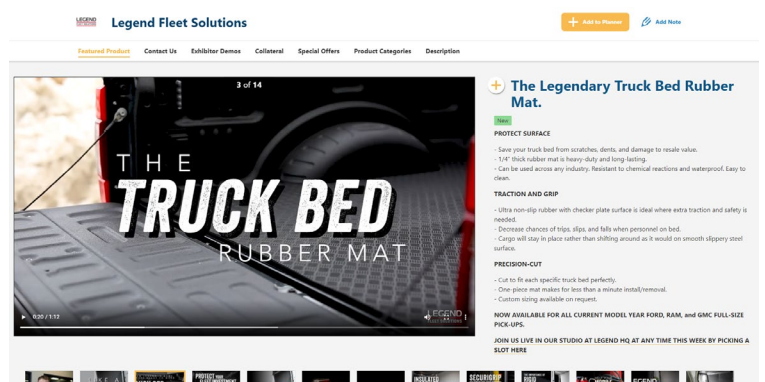

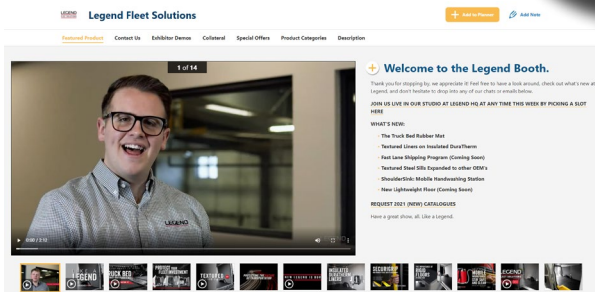

No travel, no worry! Due to not being able to travel with the current restrictions, we got creative and built a Studio at Legend HQ with a van body showcasing our products. The first live demo was at the Work Truck Show, where over 160 tuned in to watch and learn. We've been meeting with folks live from our studio since.

Reach out if you're interested in a live demo for your team, or using it for training purposes! Watch out for a tour video.

INDUSTRY SPOTLIGHT - ELECTRIC EXPLOSION

While market after market is being transformed by technological advancements, the cargo van market has quickly seen exciting vehicles being announced, coming in the next couple years. The Ford E-Transit will be on the road by the end of this year, and other unique companies like ARRIVAL and GM's BrightDrop are planning to roll out vehicles starting in 2021 for some of the larger fleets.

In 2018 Legend recognized the future in EVs and started working on lightweight eco-friendly products. Today Legend continues to develop innovative products and is at the forefront of interiors for electric cargo vans. The future is exciting and Legend is here to protect it! Stay tuned for more information about our lightweight floor coming soon.
