Hello from LEGEND FLEET - 04.30.21

Welcome, and thank you for downloading our e-newsletter! In each edition, we will be showcasing certified Legend upfitters from across North America and the awesome upfit work they are doing, a product spotlight, and what we've been up to at Legend HQ. Enjoy!

UPFITTER SPOTLIGHT - U.S. UPFITTERS

U.S. Upfitters Upfit of the Month: **FOOD-SERVICE DISTRIBUTION VAN**

Location:
CHICAGO, ILLINOIS

Vehicle:
Transit 148" Ext. Dual Rear Wheel Van

Legend Products in upfit:

- StabiliGrip Rigid Floor
- Yellow Steel Side and Rear Thresholds
- DuraTherm Insulated Interior Liners

Other Products in upfit:

- Shelving
- Safety Partition
- Grip Running Boards

[U.S. Upfitters](#) is one of Legend's largest dealers, distributing products throughout North America with a wide range of stock across multiple locations.

This upfit was completed for a local distribution company that delivers product to various restaurants and stores in the area. The company wanted to protect the side walls of the van from being damaged by shifting product, as well as an "easy to clean option" for the ceiling. Because the end-user often moves pallets of materials, they wanted a durable floor option that would take the abuse of loading and unloading pallets.

UPFITTER SPOTLIGHT - U.S. UPFITTERS

U.S. Upfitters provided Legend Duratherm wall liners, ceiling liner, and door liners, as well as the Stabiligrip floor with the upgraded heavy-duty yellow steel door thresholds. The optional yellow powder-coat finish was chosen as an extra safety measure.

To complete the upfit, an Adrian Steel partition was added to provide driver safety, a Ranger Design shelving package to provide storage for smaller items, additional LED lighting to illuminate the cargo area of the vehicle, and 7" Luverne Grip Step running boards for safer and easy entry into the van.

LEGEND HQ SPOTLIGHT: COVID TESTING VANS IN THE UK

Across the pond, [Legend Fleet UK](#) has been very busy serving upfitters and fleets across all industries. Most recently, Legend UK worked with Bristol upfitter [TGS Automotive, Renault](#), and the [UK Government Department of Health and Social Care](#) to upfit 500 COVID Mobile Testing Van Units. The Renault MASTER's will be deployed at COVID testing sites across the UK to aid the NHS Test and Trace programme. Check it out!

LEGEND PRODUCTS IN THIS UPFIT:

- StabiliGrip Rigid Floor
- High Visibility Yellow Steel Sills
- Wall Liners, Ceiling Liners, and Door Liners

PRODUCT SPOTLIGHT - HIGH-VISIBILITY TREADPLATES

NEW

When drivers and technicians are getting in and out of a van hundreds of times a day, it becomes habit to revert to muscle memory, and not look where they're going at the entry points. This is why having something high-visibility at both doors is highly recommended for driver safety.

Legend Fleet offers several different steel doorway thresholds in high-vis yellow, and as customized fleet needs expand, so do our options. This new doorway safety product, designed for the Ford Transit, was designed to add additional safety to existing OEM sills, creating a doorway threshold that is extremely grippy and can be seen easily. This treadplate can save trips and falls, ultimately decreasing downtime and maximizing productivity.
