

DELIVERED IN DAYS

Healthy, cost effective solutions that provide reliable protection - without the wait.

VACCINATION STATIONS

Indoor Solutions

COVID vaccination stations will be commonplace in 2021. HON can provide reliable and easy-to-clean solutions at a moment's notice. With limited space in mind, the right protective measures to ensure the safety of employees, medical professionals, and their patients is our number one goal.

Drive-Through Solutions

As COVID testing stations continue to provide efficient and convenient assessments across the United States, the need for products that perform under pressure remains a priority. Outdoors stations require mobile and durable solutions - from dependable storage to adaptable tables with superior mobility to additional PPE stands to meet sanitary guidelines.

When creating your vaccination station:

1. Consider safety requirements
2. Use appropriate personal protective equipment
3. Evaluate your location
4. Ensure privacy
5. Consider flexibility and mobility to maintain adaptability when choosing furniture for this space
