

# 3-D

## POST-EMERGENT HERBICIDE

**BACK IN  
STOCK!**

**3-D** is a post-emergent herbicide with a three-way formula harnessing the potency of MCPP to enhance weed coverage and expedite control.

### Features & Benefits

- Powered by a 3-way combination of active ingredients: 2,4-D, mecoprop-p and dicamba for dependable broadleaf weed control.
- Ideal for both cool- and warm-season turf.
- Flexible use rates for problem control and maintenance applications and compatible for tank-mix with most liquid fertilizers and iron.

### Mode of Action

Post-emergence growth regulator (Auxin type) herbicide that moves both upward and downward to the growing points of the roots and shoots.

### Effective Against

Clover, Dandelion, Plantain, Henbit, Purslane, Ragweed

### Use Sites

golf courses, residential turf and sod farms as well as non-crop areas such as highways and rights-of-way.

### Active Ingredient

- 30.56% 2,4-D
- 8.17% Mecoprop-p
- 2.77% Dicamba

### Packaging

- 2 x 2.5 gallon
- 5 x 30 gallon
- 1 x 250 gallon tote

Always read and follow product label directions.
