

# CSI 4-4

## Mosquito, Fly & Gnat Control

CSI 4-4 Mosquito, Fly and Gnat Control are synthetic pyrethroid vector control insecticides. The low odor, non-corrosive formula contains permethrin, which attacks the nervous system, and piperonyl butoxide, a synergist that delivers quick knockdown and effective control.

- Designed for ultra low volume (ULV) and thermal fogging applications
- Quick Knockdown, long-lasting residual
- Controls mosquitoes that carry and transmit West Nile Virus

### Formulation

Oil based fogging concentrate

### Active Ingredient

4.6% Permethrin,  
4.6% Piperonyl Butoxide

### Packaging

CSI 4-4: 2 x 2.5 gallon, 55 gallon drum

### Effective Against

Adult Mosquitoes, Biting and Non-biting Midges, Black Flies

### Application Rates

See label for specific uses and rates
