

LICE-BAN POUR-ON

Ready-to-Use Suspension for Control of Flies & Lice on Lactating and Non-Lactating Dairy Cattle, Beef Cattle, Calves & Horses

Product Features:

Provides control of chewing (or biting) and sucking lice. One application controls lice. Has a zero day pre-slaughter interval and milk discard time. May be used as a component of an integrated pest management program, either alone or in combination with other insecticides as an aid to prevent the development of insecticide resistance.

Key Insects:

Sucking lice, chewing (or biting) lice, house flies, stable flies, horse flies, black flies, horn flies, deer flies, cattle ticks

Use Sites:

Lactating and non-lactating dairy cattle, beef cattle, calves and horses.

Active Ingredients:

Diflubenzuron, Permethrin
