Nutgrass Eliminator

Turf Herbicide

Product Features:

Nutgrass Eliminator is a selective post-emergent herbicide that targets weeds growing in lawns and other landscaped areas without harming desirable plants. Nutgrass Eliminator will control purple nutsedge and yellow nutsedge, as well as several other broadleaf weeds. Can be used in well-established commercial & residential turfgrass and around woody ornamentals in landscaped areas. It can be used on both cool-season & warm-season grasses.

Effective Against:

Purple nutsedge, yellow nutsedge and certain broadleaf weeds.

Use Sites:

Commercial and residential turfgrass and on other non-crop sites.

Active Ingredients:

5% Halosulfuron-methyl
