

SPECTRE 2 SC

INSECTICIDE

Spectre 2 SC is a non-repellent insecticide formulated with 21.45% of Chlorfenapyr to kill listed pests. Because Spectre 2 SC is odorless and non-repellent, insects can't sense it to avoid it. Pests come in contact with it and then spread it to others, controlling pests that never came in contact with the product.

Active Ingredients

21.45% chlorfenapyr

Packaging

6 x 15 ounce bottles

Target pests

Ants, Beetles, bed bugs, cockroaches, house crickets, house flies and more.

Use Sites

inside residential structures, commercial areas (including food handling establishments, food service, storage, preparation, and processing areas), meat, poultry and egg plants, institutional areas and warehousing establishments.
