

Stryker[®] 5-25

INSECTICIDE CONCENTRATE

Features and Benefits

- Multi-purpose quick kill insecticide
- Used for adult mosquito control, including those that transmit WNV, Chikungunya and Zika viruses
- Approved for use on livestock, including cattle, poultry and swine
- One 64 oz bottle makes 55 gallons for mosquito misting systems

Stryker[®] 5-25 is a water-based, micro-emulsion blend of Pyrethrin and PBO. This combination product has the right ratio of active ingredients to achieve excellent control of mosquitos, gnats, midges and other flying insects. Stryker 5-25 is the ideal rotational product for use in residential or barn misting systems and public health mosquito control. It provides quick knockdown with a short residual and no phytotoxicity. **Stryker[®] 5-25 is approved for use on over 60 insects and 60 use sites.**
