

STUMP KILLER

PRODUCT FEATURES

Martin's Stump Killer is effective in cut surface applications for killing unwanted trees and preventing undesirable sprouting of cut trees in forest and other non-crop areas. It's a ready-to-use formula in a convenient quart squirt bottle. A blue dye is included that allows the applicator to readily view the application to make sure it is complete.

KEY PLANTS

Birch, dogwood, green ash, hickory, oaks, serviceberry, alder, cedar, elm, gum, pecan sourwood, aspen, cherry, firs, hawthorn, maples

USE SITES

Forests and non-cropland areas (fencerows, roadsides, and rights-of-way and similar sites)

ACTIVE INGREDIENTS

5.4% Picloram
 20.9% 2,4-Dichlorophenoxyacetic acid,
 triisopropanolamine salt
