

INTRODUCING  
**TAURUS® DRY**  
FOR USE WITH THE PRECISION DELIVERY SYSTEM

Introducing TAURUS DRY  
Dry Flowable Termiticide.

Dry flowable termiticides provide a way to make directed applications into termite haborage, including galleries, voids, shelter tubes and termite nests. Until now, effective application of dry flowable termiticides has been limited by the application tool used.

**Not anymore.**

TAURUS DRY featuring the Precision Delivery System provides an innovative way to apply dry flowable termiticide deep into termite haborage where traditional methods cannot reach.

The PDS allows fast, easy, controlled, precise application of TAURUS DRY into areas where termites live and breed. The formulation combined with the PDS provides flexible and targeted applications with an active ingredient PMPs trust.

# FEATURES & BENEFITS

## TAURUS DRY Use sites

Voids, Termite nests, Utility poles, Railroad trestles, Galleries, Inaccessible areas of buildings, Fencing, Piers\*, Shelter Tubes, Trees\*, Decking materials, beams, other structural or landscape timbers where termite activity is observed. \*Site not for use in California.

## Insects Controlled

All species of drywood and subterranean termites

## How it Works

The TAURUS DRY formulation consists of a proprietary non-repellent material and the active ingredient fipronil. The product is delivered as very small particles to allow application via the PDS. TAURUS DRY is capable of topical or physical transfer among nest mates, meaning untreated termites can be affected by interacting with treated ones.

## Advantages of using TAURUS DRY

- The most trusted active ingredient in the industry
- Non-repellent formulation
- Dry Flowable formulation - no water/moisture is added to the structure
- Applies with the Precision Delivery System allowing precise applications and less wasted material.

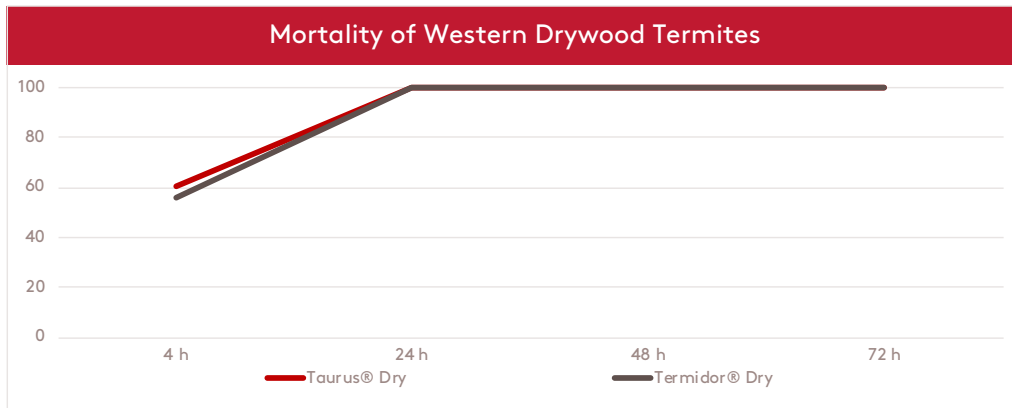

## Active Ingredients

0.5% Fipronil

## Packaging

- 4-pack of 3 g cartridges (a total of 12 g of TAURUS DRY)
- Starter Kit contains a PDS unit, holster, applicator straws and 4-pack of TAURUS DRY.

## Proven Performance

TAURUS Dry was proven to be highly efficacious after only 24 hours of exposure to drywood termites. University of California Riverside, Dr. Michael K. Rust.

## STARTER KIT

Everything you need in one box

## UNIT

High-efficiency dry flowable applicator

## DRY FLOWABLE

Flexible label and incredible longevity

## HOLSTER

Designed for convenience and durability

## APPLICATORS

Precise application into cracks & crevices
