

# **Business Data Communications & IT Infrastructures Edition 3.0**

**Manish Agrawal  
Clinton Daniel  
University of South Florida**

## **Table of Contents**

Preface

### **Chapter 1: Introduction**

Overview

Introduction

Utility of Computer Networking

Technology Milestones

Packetization

Layering

TCP/IP Stack

OSI Model

Principles of Internet Protocols

Typical Computer Network

Summary

About the Colophon

Review Questions

Example Case: Domino's Pizza

Hands-on Exercise: Traceroute

Critical Thinking Exercise: The Power of Universal Exchange Formats

IT Infrastructure Design Exercise: Identifying Uses

Virtual Machine Exercise

## **Chapter 2: Physical Layer**

Overview

Functions of the Physical Layer

Physical Media and Their Properties

Data vs. Signals

Signals and Their Properties

Impact of Noise and the Importance of Binary Signals

Transmission and Reception of Data Using Signals

Multiplexing

Summary

About the Colophon

Review Questions

Example Case: Smart Grids

Hands-on Exercise: Amplitude Shift Keying

Critical Thinking Exercise: The Value of Carriers

IT Infrastructure Design Exercise: Media Selection

Virtual Machine Exercise

## **Chapter 3: Data-Link Layer**

Overview

Functions of the Data-Link Layer

Ethernet

CSMA/CD

Error Detection

Ethernet Frame Structure

Switched Ethernet—State of the Market

Summary

About the Colophon

Review Questions

Example Case: Networks Helping Big Data Applications

Hands-on Exercise: OUI Lookup

Critical Thinking Exercise: Broadcast and Search

IT Infrastructure Design Exercise: Ethernet Diagram

Virtual Machine Exercise

## **Chapter 4: Network Layer**

Overview

Functions of the Network Layer

Overview of the Internet Protocol (IP)

IP Header

IP Addresses

Classless Interdomain Routing (CIDR)

Obtaining IP Addresses

IPv6

Summary

About the Colophon

Review Questions

Example Case: Retailing

Hands-on Exercise: ipconfig and ping

Critical Thinking Exercise: Genetic Code

IT Infrastructure Design Exercise: Estimating CIDR Requirements

Virtual Machine Exercise

## **Chapter 5: Transport Layer**

Overview

The Need for a Transport Layer

Transmission Control Protocol (TCP)

TCP Functions

Multipath TCP (MPTCP)

TCP Header

UDP

Summary

About the Colophon

Review Questions

Example Case: Financial Industry

Hands-on Exercise: netstat

Critical Thinking Exercise: Flow Control of Distractions

IT Infrastructure Design Exercise: Estimating Data Requirements

Virtual Machine Exercise

## **Chapter 6: Application Layer**

Overview

Application-Layer Overview

HTTP

Email

FTP (File Transfer Protocol)

Summary

About the Colophon

Additional Notes

Review Questions

Example Case: Google Ads

Hands-on Exercise: Wireshark

Critical Thinking Exercise: Revenue Sharing for News Creation

IT Infrastructure Design Exercise: Identifying Market Leaders

Virtual Machine Exercise

## **Chapter 7: Support Services**

Overview

DHCP

Nonroutable (RFC 1918) Addresses

Network Address Port Translation (NAPT)

Address Resolution Protocol (ARP)

DNS

Home Networking

Summary

About the Colophon

Review Questions

Example Case: DNS and Virtual Hosts

Hands-on Exercise: nslookup

Critical Thinking Exercise: Nissan Computer Corporation

IT Infrastructure Design Exercise: Start Infrastructure Diagram

## **Chapter 8: Routing**

Overview

Introduction

Autonomous Systems

Routing Tables

Viewing Routes  
Simplifying Routing Tables—Route Aggregation  
Multiprotocol Label Switching (MPLS)  
OpenFlow—Software-Defined Networking  
Routing as a Metaphor for the Aerotropolis  
Summary  
About the Colophon  
Review Questions  
Example Case: Disasters, Katrina, and 9/11  
Hands-on Exercise: BGPlay  
Critical Thinking Exercise: Smart Cities, Internet of Things (IoT),  
and the Cyber Infrastructure for Autonomous Vehicles  
IT Infrastructure Design Exercise: Failover

## **Chapter 9: Subnetting**

Overview  
Why Subnetting  
Three-Part IP Addresses with Subnetting  
Subnetting the Network Address Block  
Subnet Masks  
Benefits of Subnetting within Subnets  
Representative Subnetting Computations  
Subnetting in IPv6  
Summary  
About the Colophon  
Review Questions  
Example Case: An ISP in Texas  
Acknowledgments  
Hands-on Exercise: Subnet Mask  
Critical Thinking Exercise: Subnet Design  
IT Infrastructure Design Exercise: Subnet Design

## **Chapter 10: Wide-Area Networks**

Overview  
Introduction  
Point-to-Point WANs  
Statistically Multiplexed WANs

TDM WANs  
FDM WANs  
WANs and the TCP/IP Stack  
Summary  
About the Colophon  
Review Questions  
Example Case: Unmanned Aerial Vehicles  
Hands-on Exercise: Web Page Debugging  
Critical Thinking Exercise: Professional WAN  
IT Infrastructure Design Exercise: WAN Design

## **Chapter 11: Network Security**

Overview  
Introduction  
Network Security  
Network Security Controls for Incoming Information  
Network Security Controls for Outgoing Information  
Summary  
About the Colophon  
Review Questions  
Example Case: T. J. Maxx  
Hands-on Exercise: https  
Critical Thinking Exercise: Identifying Threats  
IT Infrastructure Design Exercise: Adding Security

## **Chapter 12: Computing Infrastructures**

Overview  
Origins—von Neumann Architecture  
The Operating System  
Scaling Up—VMs and WSCs  
Cloud Computing  
Summary  
About the Colophon  
Acknowledgment  
Review Questions  
Example Case: 40 Servers to 5,000 in 3 Days  
Hands-on Exercise: perfmon

Critical Thinking Exercise: Nanoscale Computers  
IT Infrastructure Design Exercise: Using the Cloud

## **Chapter 13: DevOps**

Overview  
Introduction  
Origins  
Automated Infrastructure or Infrastructure as Code (IAC)  
Shared Version Control  
One-Step Build and Deploy  
Feature Flags  
Shared Metrics  
IRC and IM Robots  
Culture  
Summary  
About the Colophon  
Review Questions  
Example Case: Dev Infrastructure at ThoughtSpot  
Hands-on Exercise: GitHub  
Critical Thinking Exercise: Stage Management  
IT Infrastructure Design Exercise: Using DevOps

## **Chapter 14: Managerial Issues**

Overview  
Introduction  
Infrastructure Design  
Maintenance  
Standards  
Government Involvement, Legal Issues  
Summary  
About the Colophon  
Review Questions  
Example Case: Telework, Telemedicine, Telelearning  
Hands-on Exercise: Standards Development Review  
Critical Thinking Exercise: Patents  
IT Infrastructure Design Exercise: Hire Yourself

## **Supplementary Chapter 15: Wireless**

Overview

Introduction

ISM Frequency Bands

Wireless Local-Area Networks (the 802.11 series)

Personal Area Networks (The 802.15 Series)

RFID (Radio Frequency Identification)

Summary

About the Colophon

Review Questions

Example Case: The Oil Industry

Hands-on Exercise: AirPCap Wireshark Captures

Critical Thinking Exercise: Ubiquitous Wi-Fi

IT Infrastructure Design Exercise: Add Wi-Fi

## **Supplementary Chapter 16: Phone Networks**

Overview

Introduction

Phone Network Components

Phone Signals

Legal Developments

Digital Subscriber Line (DSL)

Cell Phones

Summary

About the Colophon

Review Questions

Example Case: Cellphones and Global Development

Hands-on Exercise: CDMA

Critical Thinking Exercise: Other 3 Billionaires

IT Infrastructure Design Exercise: Switch to VoIP

## **Supplementary Chapter 17: Services Delivery**

Introduction

IT Services Management

Service Delivery Disciplines

High Availability Concepts

High-Availability Architectures

Business Continuity and Disaster Recovery

Summary

About the Colophon

Review Questions

Example Case: Chaos Monkey at Netflix

Example Case Exercise Questions

Hands-on Exercise: Device Uptime

Hands-on Exercise Question

Critical Thinking Exercise: Personal High Availability

IT Infrastructure Design Exercise: Including Active Replication

## **Appendix A: VM Setup**

## **Appendix B: Networking Careers**

*Glossary*

*Index*
