MARQI 2021

Medical Affairs & Regulatory Quarterly Initiatives

In succession of the incredible accomplishment with our Center Teams attaining CARF Accreditation across the nation, the CleanSlate Medical Affairs & Regulatory Team recently introduced our new MARQI program. Quarterly our department will meet with each of our 5 CleanSlate CARF Regions to provide ongoing support & guidance in continually achieving & maintaining Accreditation as well as Licensure.

INSPIRE TO ASPIRE

LIVE TRAINING PRESENTATIONS ★ INSPIRING OUR CENTERS TO ASPIRE TO EXCELLENCE

Medical Affairs & Regulatory will provide live training presentations inclusive of essential & contemporary topics in the following areas:

- ✓ **Compliance Campaign**
- ✓ **Health & Safety Program**
- ✓ **Regulatory-Licensure**
- ✓ **Accreditation**
- ✓ **Medical Affairs**

We're excited to say that MARQI was effectively launched in Q1 2021 with positive reception & will resume in June with our Q2 presentations!

ASPIRE to Excellence® carf ACCREDITED

Proud to Be Accredited by **CARF International**

The goal of MARQI is to emphasize the importance of continuous quality improvement with a focus on empowering our Centers to sustain their high-level of conformance to both the CARF Standards & State Regulations vital for future renewal Accreditation Surveys & Licensure Inspections. This goal will be realized via tracking consistent completion of Center-specific requirements in combination with annual-mandatory LMS course enrollment. In addition to live training presentations, we will provide various promotional items as part of our Compliance Campaign, re-introduce crucial Health & Safety documentation & activities as well as utilize this platform to provide any important announcements, updates & reminders related to Regulatory-Licensure, Accreditation & Medical Affairs. The primary target-audience for MARQI presentations are our operational Center Managers but will evolve to include our other essential departments & personnel as needed.
