

Polarcirkel 500R Combi has a better adapted and stiffer walkway than its predecessors.

Bird net pole socket

Polarcirkel 500R Combi offers a number of smart details for an easy and secure job execution.

# Polarcirkel 500R **Combi**

**All the best features of new brackets combined with traditional floating pipes.**

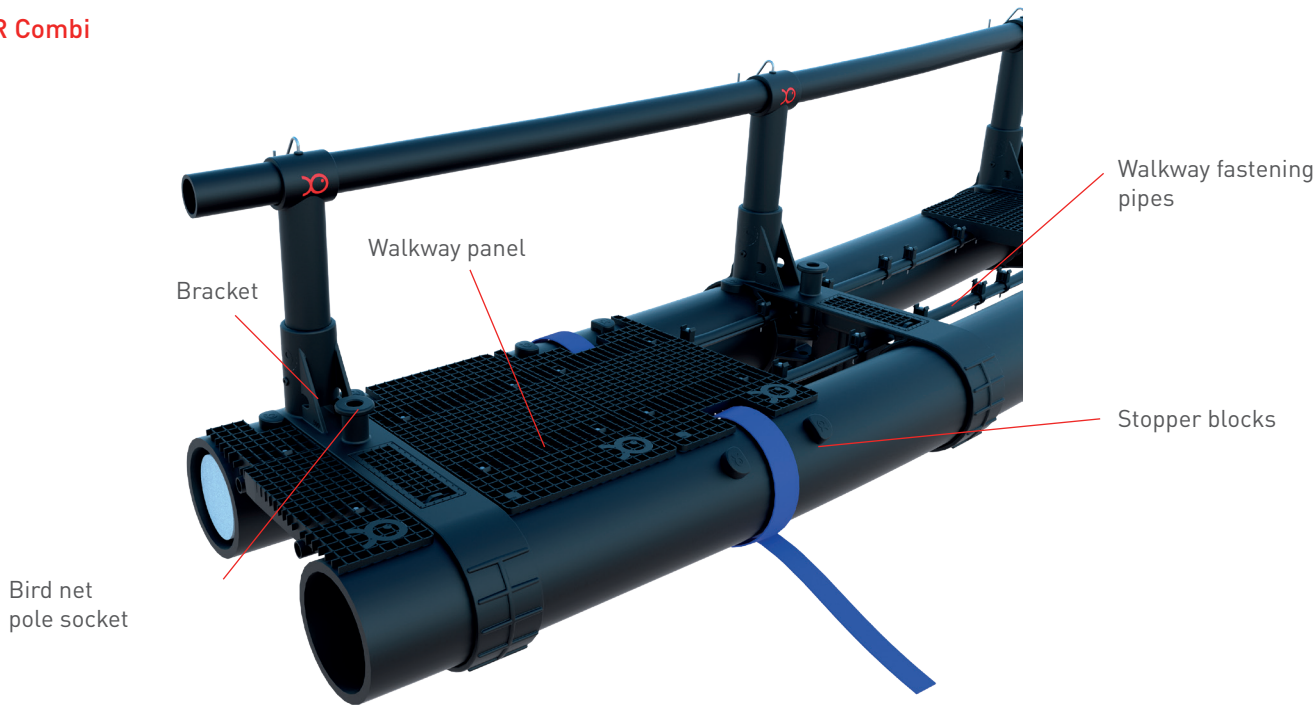

When nature rebels, you need equipment you can trust. Polarcirkel 500R Combi pen gives you an efficient, safe and secure platform even in extreme weather conditions. The pen has a very robust and stable construction:

- Made from non-corrosive high-quality Polyethylene
- Fortified stanchions (180mm) and railing pipes (160mm) enhances the pen's loading capacity
- Built-in bird net pole sockets
- New integrated net connection system
- Strong bollards for mooring boats to the pen
- Recessed box for sinker tube suspension
- Several smart add-on options, including outer railing
- Regular mooring solution with straps
- Better adapted and stiffer walkway
