

Standalone Solar Surveillance Video Tower

No Power Required - Independent Lighting & Surveillance Mobile Security Towers

No External Power Required: Whether you are monitoring city streets, campuses, or remote locations, Standalone Solar Surveillance Towers were built to be deployed at a moment's notice for travel to and implementation at any outdoor communal space. Designed for tough conditions and durability. Mobile Surveillance Towers offer robust lighting and the ability to power multiple camera configurations. Combine with ATD - Gunshot Acoustic Threat Detection. When a gunshot is heard, our cutting edge technology identifies the location of the threat.
