Today, businesses use over 15 systems to manage their employee operations.

HRIS / Documents

Payroll

Health Insurance

ACA & Cobra

FSA

HSA

Commuter

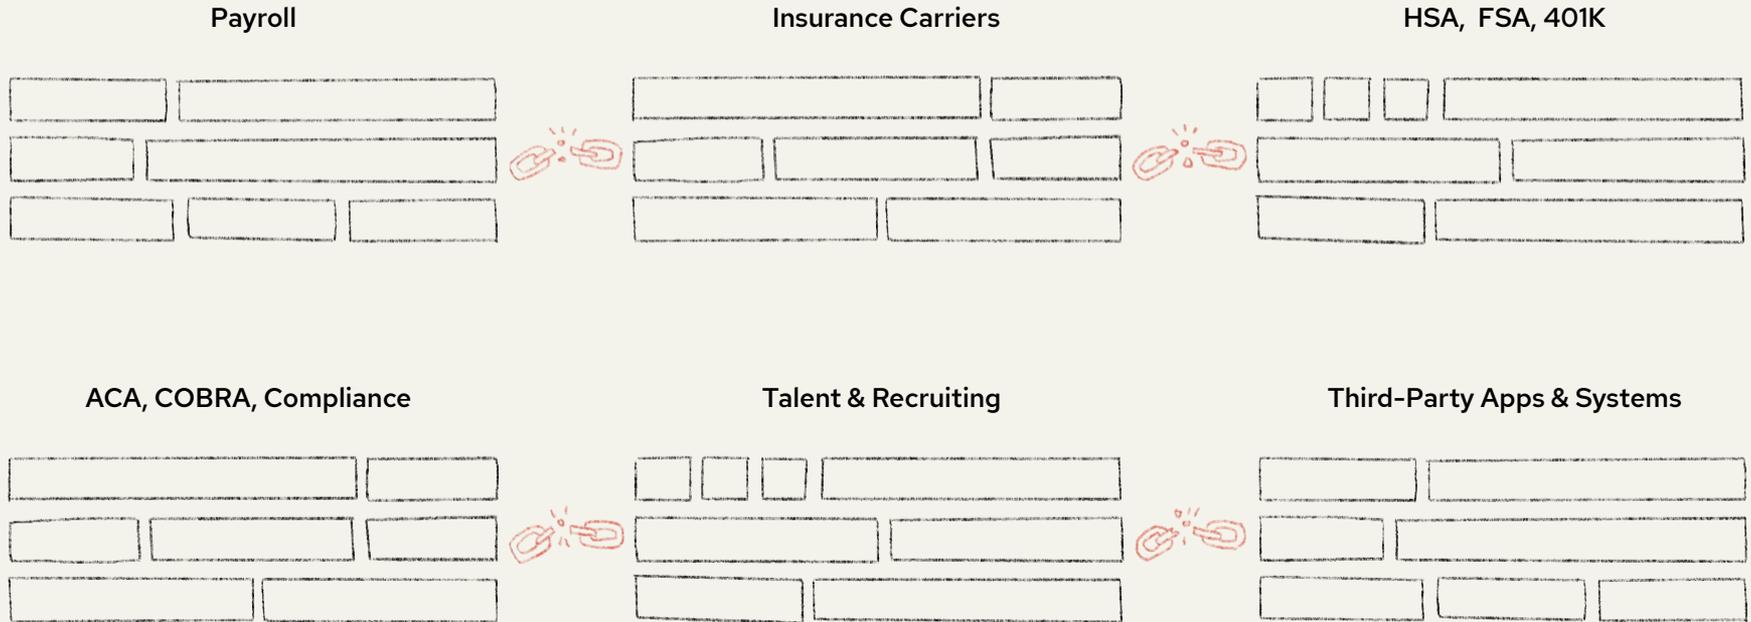

Third-party apps

We discovered a secret.

Every system runs on the
same employee data.

Name	Address	
Date of birth	Title	
Department	Bank account	Social security

The problem is, today's systems are siloed and disconnected.

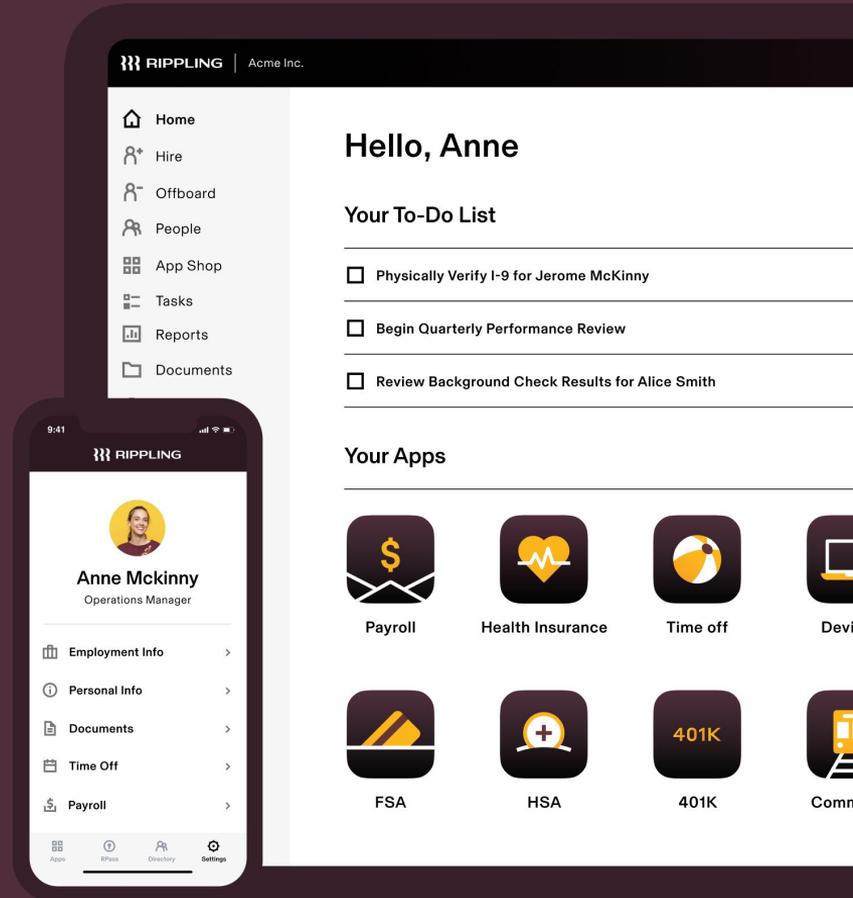

And that creates admin work. Lots of it.

Rippling connects **Payroll** to **one** employee record.

- Manage every system in one place
- Onboard or offboard people in 90 seconds
- Go 100% online and paperless

Rippling automates your admin work tied to employee changes.

For example,
let's say Emily...

- ... joins (onboard)
- ... gets promoted
- ... gets married
- ... leaves (offboard)

Why Brokers are Turning To Rippling

Win (and
retain) more
clients

- **Win more BORs** by leveraging Rippling
- **Compete against PEOs** and easily move groups off
- **Reduce client churn** by recommending Rippling and stopping groups from switching to Digital Brokers

Get best-in-class implementation

- **2-4 weeks** avg. implementation timeline, PEO switches require a minimum of 4 weeks
- **We import data from digital brokers** for free
- **Easy, white-glove setup** includes dedicated account manager, training webinars, and more

General Agency Benefits for Brokers

- **Free Payroll:** each new brokerage gets 6 months free payroll for 5 referred clients (normally \$8 PEPM)
- **Discounted Ben Admin:** clients receive 50% off ben admin and waived for brokers 1st referral (\$5 PEPM)
- **OE & Automated Form Support:** PGP will be trained as a certified partner to support OE and have a Rippling partner success manager to support OE and automated form processing.
- **EDI & API Support:** PGP will have access to preferred pricing for carrier file feeds.
- **PGP Pricing:** Pricing model is unique through PGP.

One platform. Zero headaches.

Rippling connects every system to a single source-of-truth for employee data.
