The Red Ribbon Campaign® is the oldest and largest drug prevention program in the nation, reaching millions of young people during Red Ribbon Week®, October 23rd - October 31st each year.

Introducing the new 2020 National Red Ribbon Theme: Be Happy. Be Brave. Be Drug Free.™

What Is Red Ribbon Week?

It is an ideal way for people and communities to unite and take a visible stand against drugs. Show your personal commitment to a drug-free lifestyle through the symbol of the Red Ribbon, October 23 - 31st.

Why?

The Red Ribbon Campaign® was started when drug traffickers in Mexico City murdered DEA agent Kiki Camarena in 1985. This began the continuing tradition of displaying Red Ribbons as a symbol of intolerance towards the use of drugs. The mission of the Red Ribbon Campaign® is to present a unified and visible commitment towards the creation of a DRUG - FREE AMERICA.

Who?

National Family Partnership is the sponsor of the National Red Ribbon Week® Celebration. We are helping citizens across the country come together to keep children, families and communities safe, healthy and drug-free, through parent training, networking and sponsoring the National Red Ribbon Campaign®.

Why Support The National Theme?

A theme unifies each year's campaign and helps to broadcast one message, creating a tipping point to change behavior.

How?

Plan a Red Ribbon celebration. Order and display Red Ribbon materials with the National Red Ribbon Theme. Proceeds from the sale of Red Ribbon theme merchandise helps support prevention programs across America. Order for your family, students, staff, patients, employees and customers and encourage them to wear the red ribbon symbol during Red Ribbon Week®, October 23rd - 31st.

HAS RED RIBBON BEEN EVALUATED?

Red Ribbon, specifically, has not been evaluated. However, Red Ribbon is based on scientific principles for substance abuse prevention. The White House Office of National Drug Control Policy as well as federal departments of education, justice, and health and human services supports the following principles that have been tested through rigorous research methods.

Evidence-Based Principles for Substance Abuse Prevention

1. Address appropriate risk and protective factors for substance abuse in a defined population.
2. Use approaches that have been shown to be effective:
 - a. Reduce the availability of illicit drugs, alcohol, and tobacco for the under-aged through laws and policies
 - b. Strengthen anti-drug-use attitudes and norms through sharing information and engaging in activities
 - c. Strengthen life skills and drug refusal techniques
 - d. Reduce risk and enhance protection in families by setting rules and communicating
 - e. Strengthen social bonding
 - f. Ensure that interventions are appropriate for the populations being addressed
3. Intervene early at important stages and transitions
4. Manage programs effectively by ensuring consistency, training staff and volunteers, and monitoring and evaluating programs.
