

# RAVAL FACIAL AESTHETICS AND ENT, PC

**JEFFREY R. RAVAL,  
MD, MBA, FACS**

**5 5280 Top Doctor 2021**

*Board Certified, Facial Plastic and Reconstructive Surgery, Board Certified, American Academy of Otolaryngology-Head and Neck Surgery*

His passion for helping patients put their best “face” forward has led to the success of Dr. Raval’s practice in the Art of Facial Plastic Surgery™. After being named a 5280 Top Doctor for several years (an award based on nominations from other physicians); his peers seem to agree. For more than 20 years, Dr. Raval and his team have provided caring service to local, national, and international patients. Their devotion has not gone unnoticed, as they have received numerous accolades through the years. His team’s mission is to listen to the goals of their patients, discuss their options and deliver the highest quality care and outcomes.

Dr. Raval is known in Denver as the leader in rhinoplasty (nose job) and facelift procedures. As interest in non-surgical rejuvenation has grown, so has his expertise in this area. Dr. Raval has become a leading practitioner in the use of Botox, Dysport and dermal fillers. All these tools, combined with his education, training, and years of experience, have helped his patients achieve their best look with minimal downtime.

His love for facial plastic surgery extends beyond the practice of medicine. He has also served as an educator for Allergan (makers of Botox, Juvederm, Volbella and Voluma) and Galderma (makers of Dysport and Restylane), entrusted with training other physicians and nurses around the country in the best practices for dermal fillers, facial volumizers and botulinum toxin injections.
