

# Discover and Act on every SaaS application in your portfolio

- Control SaaS sprawl
- Automate mundane tasks
- Manage SaaS spend and reduce subscription costs
- Find and address security concerns

## #1 in Actionable Insight

Find 2x more apps than other platforms, and take action with a single click

Prioritize investments by measuring app adoption and user engagement.

Find redundant subscriptions hidden in expense reports and other unseen sources.

Compare duplicate apps to drive cost savings and smart decisions.

Right size licenses immediately or create reminders for renewal time.

## Put Repetitive on Autopilot

Act on 1000's of apps at once with powerful automation

Save hours every month with customizable onboarding and offboarding workflows.

Support innovation with compliant self-service app requests.

Protect sensitive data with custom security alerts and data migration actions.

# Customer Speak Louder

Discovered

that the number of SaaS apps in use is

**3x** higher than they initially thought

Saved more than

**\$1m** a year on unused SaaS accounts

Cut

hours spent on manual IT tasks by at least

**75%**

**pipedrive**

"When Torii surfaced that there are more than 600 applications being used, it was much easier for IT to start building the right process for SaaS management."

**Maarika Raudmäe**  
Head of Internal Tools

**monday.com**

"This product's return on investment is incredible, Torii is something that's needed, especially in an environment like ours, but also for any organization."

**Ouriel Weisz**  
Head of operations

**rockcontent**

"Torii was core to us being able to centralize all information relating to our SaaS contracts, costs and usage, and to getting everyone on the same page."

**João Dobbin**  
Senior Manager  
of Business Operations
