

mprove part profitability while accelerating time to source

Using Tada's Material Cost Reduction solution

Material cost is often the most impactful driver when it comes to improving profitability. Having an understanding of this cost driver will not only help identify reduction opportunities, but will also provide leverage for negotiations.

Tada's Material Cost Reduction solution uses a unique part taxonomy to deliver results, reducing part costs by **5-15%** on average.

Benefits

5X FASTER to resource/source NPI

10-15% direct material cost reduction

30-50% cost avoidance

Additional Benefits
