

Acquisition Assessment Toolkit

At ITR Economics, we employ a unique methodology that gives you the advantage during your due diligence phase. Armed with our high accuracy rating – 92.7% accurate for company data at five quarters out – we put together a 12-quarter forecast for your target company’s sales data, providing you with a clear picture of the overall health of the business. Our process includes a preliminary analysis – with no commitment on your part – to ensure we are confident in forecasting the data.

What is included in the Acquisition Assessment Toolkit?

12-Quarter Company Data Forecast

- Based on a minimum of 7 to 10 years of company data
- Initial delivery of product will be four to six weeks from contract*

Leading Indicator Analysis

- Three economic indicator charts with analysis illustrating trends driving the business

Consultation with Economic Advisor

- Consultation with a business economist to review the forecast and economic drivers
- Economist will advise on the health and direction of the target business to assist in the due diligence decision-making processes

Market Landscape Overview

- A chart of up to 10 of the target company’s markets
