

Modern Meeting Rooms

With distributed workforces effective collaboration is crucial, ensure your meeting rooms are ready to deliver for the way we work today.

CANCOM

Seamless collaboration experiences.

Collaborate faster

Get in the meeting with no delay with features such as one-touch join, proximity detection and a familiar Microsoft Teams look and feel to your meetings.

Collaborate everywhere

Bring together local and remote attendees from anywhere with native Microsoft Teams apps available on multiple devices. Collaborate across platforms with WebRTC and Cloud Video Interop.

Collaborate confidently

Consistent meeting experiences that work reliably with clear video and audio, easy set-up and management.

The right solution for all your rooms

Every meeting room is different, with unique lighting, acoustic, power and data requirements. CANCOM's experienced consultants will carry out a Meeting Room Assessment to establish both the physical recommendations as well as the most appropriate technical solution to ensure you can realise the best value from both existing investments as well as new ones.

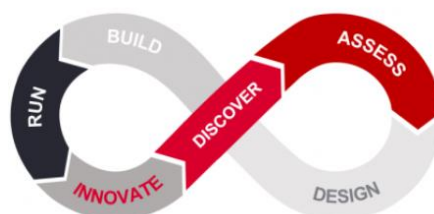

Meeting experiences in the modern world

Meetings no longer only occur inside traditional meeting rooms, focus areas, huddle rooms and breakout zones are now all common across the office environment. With solutions designed to meet the needs of each of these, CANCOM can help you enable your workforce in these spaces fast.

The CANCOM approach

Through our proven Gartner-rated enablement framework, we'll work in partnership with you during each essential step. From getting started all the way through to support.
