

Experienced Security Professional

Compass IT Compliance, LLC is a leading Information Technology Security, Audit and Compliance firm. Companies large and small must comply with a confusing mix of regulations and laws such as the PCI DSS (Payment Card Industry Data Security Standard), FFIEC, Sarbanes-Oxley, HIPAA /HITECH, Basel II, Gramm-Leach-Bliley Act, Patriot Act, Identity Theft Red Flags, SEC requirements and state privacy laws. Even in today's tough economy, and in the face of rising costs and shrinking staffs, companies must remain a step ahead of these complex compliance requirements.

Compass IT Compliance provides experienced, certified Security Analysts to perform and review the technical components for the various regulations, frameworks and guidelines organizations must comply with. By outsourcing these security requirements to Compass, organizations save costs while ensuring compliance by employing objective, certified consultants from an independent and trusted IT Security and Compliance leader. The security services Compass provides include:

- Internal/External Penetration Testing
- Web Application Penetration Testing
- Vulnerability Scanning
- Social Engineering Testing (Phishing)
- Security Awareness Training
- Firewall/Network configuration reviews
- Digital Forensics Investigations

Compass is looking for an experienced IT Security Professional for a full-time position to assist in meeting the growing need for our security services within our company. The Sr. IT Security Professional will be an integral part of our security team and must be able to work independently. The candidate should have strong communication skills to interact with all levels of client personnel and effectively communicate their efforts and results to organizations' technical teams as well as their senior management teams. This individual must have the ability to be self-motivated to work independently and also be available to work as part of team. Compass encourages team members to contribute ideas and experience to help improve and enhance the Security services offered.

Experienced Security Professional Job Summary:

- Perform internal and external network penetration tests
- Perform web-application penetration tests
- Perform internal and external vulnerability assessments

- Provide the technical expertise and support for various IT compliance audits such as PCI, HIPPA/HITECH, ISO27001/2, NIST Cybersecurity, SANS Top 20 CSC, etc.
- Participate as a security expert in team projects and assignments
- Assist with Digital Forensics investigations and Incident Response as needed.
