

Business Insurance

Working out how much and what type of insurance your business needs can be complex, with City Rural Insurance you can be confident you're making the right choice. As your broker, we have the expertise and will take the time to understand your business and source the most suitable insurance for your needs.

Here are some of the key insurance products that every business should consider.

Business Interruption

Business interruption insurance can help your business to keep running if the insured property is lost or damaged after a catastrophic event such as fire, by covering ongoing costs so you can recover and rebuild.

Technology & Cyber

Every business that has a website or electronic records is vulnerable to cybercrime or an accidental data breach – and the consequences of a cyber-incident can be very costly.

Management Liability

Management liability insurance provides protection against the financial exposures that come with managing a company. Helping you defend, settle or pay compensation claims.

Professional Indemnity

Anyone can make a mistake – but if your business is found liable for negligence, the costs can be financially devastating. Not only can it lead to an expensive lawsuit, but your business' hard-earned reputation may be damaged as a result.

Commercial Motor & Fleets

Suitable for a range of different vehicle types and motor fleet sizes meaning you can manage all your business vehicles under the one policy.

Public Liability

If an accident or unforeseeable incident causes damage or injury to someone (other than your employees), you may be found legally liable to cover the costs. Public liability insurance can help to protect your business from the financial risk of liability claims – helping you trade with confidence.
