

PHE 101 COURSE

CONTINUING EDUCATION

Knowledge is Power

Empower your staff with a working knowledge and appreciation for your facilities plate heat exchangers or PHE's. An educated team will help to reduce equipment downtime, prevent costly mistakes, promote team work and increase equipment longevity.

AGC PHE 101 Course

- Course participants will learn the basics of gasketed plate heat exchanger components, proper assembly, troubleshooting, and reading/understanding the manufacture's drawings.
- Develop confidence and understanding by working with specific PHE's (plate heat exchangers) in your plant.
- Confidently verify CIP (clean-in-place) effectiveness.
- Knowledge verification test is given to satisfy proficiency training guidelines.
- Convenient on-site sessions available.
