

## PIVVOT DATA

Make better business decisions with access to over 550 unique land, environmental, and societal data sources for any location in the U.S.

We've identified the top data sources you need when planning a new energy infrastructure construction or maintenance project.

Our data specialists have done the heavy lifting of curating the data and preparing it for use, saving our clients valuable time and money.

We can deliver on our data in a variety of formats or provide access to our platform, which was built to make it easy to access, interpret and share critical data.

### Jurisdictions Data

- County Boundary
- Dept. of Transportation Districts
- Municipal Boundary
- State Boundary
- U.S. ACE Districts
- U.S. BIA Regions
- U.S. BLM Admin. Units
- U.S. BOR Regions
- U.S. DOI Regions
- U.S. EPA Regions
- U.S. FEMA Regions
- U.S. Federal Lands
- U.S. FWS Regions
- U.S. FS Regions
- U.S. NMFS Regions
- U.S. NRCS Regions
- U.S. Tribal Lands

### Community & Society Data

- U.S. Census Populated Areas
- Social Vulnerability
- U.S. Census Block Group

### Boundary Data

- Congressional District
- Electric Retail Service Territories
- Energy Regulatory Region
- Natural Gas Service Territories
- Oil & Gas Production Area
- Organizational Boundary
- PHMSA Populated Places
- Public Land Survey
- Public Safety Answering Point
- School Districts
- State Legislative Districts

### Land Use Data

- Property Parcel
- Land Cover
- Land Ownership Conflicts

### Energy & Infrastructure Data

- Communication Towers & Obstacles
- Existing Transmission Powerline
- Electric Transmission Substations
- Existing Pipeline
- Fifty Foot Structure Buffer
- Contaminated Sites
- Points of Interest
- Cemeteries
- Federal Registered Sites
- Railroads
- Roads
- Trails

### Ecology & Environmental Data

- Critical Species Habitat
- Ecosystem Region Boundary
- Species Habitat

### Hydrology Data

- Aquifer
- Commercially Navigable Waterway
- EPA Protected Waterbody
- 100-Year Flood Plain
- 500-Year Flood Plain
- Levee
- National Hydrography Data: Flowline
- National Hydrography Data: Waterbody
- Watershed
- Wild & Scenic Rivers
- U.S.G.S. Stream Gauges

### Geotechnical Data

- Depth to Bedrock
- Elevation
- Fault Area
- Fault Lines
- Geological Unit
- Karst Topography
- Landslide Risk
- Peak Ground Acceleration
- Percent Slope
- Soils
