

VALUE-ADDED SERVICES

Pivvot has gathered a team of data, technology, and industry experts to build solutions with deep technical knowledge of the industry problems we aid in solving. Our consultants use their broad range of experience and GIS expertise to generate preferred routes and sites, identify social and political risks, and help companies navigate regulatory and environmental permitting.

Routing Analysis

- Analyze engineering, land, construction, environmental and socio-economic data
- Generate preliminary linear route scenarios
- Connect project objectives & weigh criteria based on regional expertise
- Deliver impact, crossing and comparison reports

Workflow Analysis

- Assess customer workflows & end results
- Optimize workflows during project execution
- Identify operational efficiencies leveraging the Pivvot platform
- Eliminate data and technical bottlenecks

Data Analytics & Aggregation

- Acquire and aggregate custom datasets
- Conduct data processing & preparation for use
- Analyze quality & accuracy checks
- Design custom data approaches

Mapping

- Create overview maps or map books for client area of interest
- Detailed illustrations of client routes or sites and variables that impact them
- Customizable to meet client and project request

Siting Analysis

- Analyze engineering, environmental, land, construction and socio-economic data
- Weigh project criteria to generate multiple project site options
- Deliver impact and comparison reports to inform site selection

Extended Support

- Web or in-person training
- Implementation and Site View customization
- Data preparation and loading

WHAT DEPARTMENTS DO WE SUPPORT?

- Commercial Development
- Environmental & Regulatory
- Integrity Management
- Legal
- Emergency Response
- Construction
- Engineering
- Public Affairs
- Land

NEED AN EXPERT OPINION?

Our pros are available to support your energy projects. We'll leverage our massive database and software to deliver high-quality, defensible analysis in record time. **Why wait weeks when you can have it in minutes?**
