

VIREO, THE PERFECT STEAM AND SEL TURNKEY LEARNING PROJECT

Cultivate the minds of the future in a concrete and immersive way

ENGAGE YOUR STUDENTS THROUGH A UNIQUE LEARNING EXPERIENCE

Vireo is an educational concept that introduces a fully integrated project-based learning program into your teaching environment. Built on the principles of STEAM and SEL, Vireo is the ideal way to help you get kids motivated to learn and develop their academic, leadership, social and communications skills.

STUDENTS THAT ARE READY FOR THE REAL WORLD

Your Vireo Garden comes with a digital learning platform accessible to all teachers and students at your school. This technology includes features that enhance teaching, as well as a library of activities that focuses on a broad range of subjects such as entrepreneurship, science and much more.

DOING IS LEARNING

A Vireo project is an innovative way to develop your school curriculum – as well as the academic and social skills of young people – with an engaging, hands-on project that prepares them for success.

Vireo promotes the pillars of STEAM and SEL through:

- Active learning
- Project-based learning
- Self-directed learning

Empower your students to flourish and thrive with a Vireo project.

Give your students a unique, hands-on project that will promote learning, help them flourish and shape their future success through stimulating experiences.

AN IMMERSIVE APPROACH TO LEARNING

Vireo projects offer endless learning opportunities. Our educational team is always working with and for teachers to help students reach their full potential.

With your students, cultivate :

- Social skills : Teamwork, collective leadership, communication, etc;
- Emotional skills : self-motivation, self-discipline, self confidence, etc;
- Discovery and application of STEAM : Critical thinking, curiosity, logical analysis, etc;
- Environmental & healthy habits;
- Entrepreneurship;
- A broad variety of projects : special education, cross-curricular, scientific, etc.

Let's create a highly motivating project that will have a lasting impact on your students.

THE ULTIMATE TURNKEY EDUCATIONAL PROJECT

The offer includes:

- All equipment and materials (complete indoor hydroponic garden, seeds, cleaning products, gardening tools, etc.);
- E-learning digital platform, accessible to the entire school;
- Ready-to-use educational activities and content;
- Support to ensure all projects are a great success for you and your students.

TESTIMONIALS

This project enabled us to learn to work as a team, assign tasks and get to know each other better. It took perseverance and resourcefulness to get through the challenges we encountered.

Marianne Bernier, Student, École secondaire Jean-de-Brébeuf

The entire school is very satisfied with Vireo's service. Experts were fast and efficient in responding. The team is very attentive.

Marie-Pierre Normand, Teacher, École La Découverte

Regarding all the previous projects of this type that I've received, I've never been comfortable with the technical risks. You answered all my questions and addressed my concerns.

Julie Coulombe, Administrative Services Coordinator, St. Lawrence Cegep Champlain
