

## EDGE Syllabus Central

Syllabus and course materials management in one centralized platform.

Increase **Revenue and Utilization** of the Bookstore

Save **Time** and Reduce **Educator Workload**

Simplify **Accreditation Reporting**

Enhance **Regulatory Compliance**

*Syllabus Central is designed to simplify and streamline the syllabus management process in one easy to use platform. Administrators access, review, and oversee syllabi in one centralized repository while maintaining educator autonomy and academic freedom.*

## *Centralized* **Portal**

Access, review, and manage current or archived syllabi from anywhere on any device. Connect the syllabus to your course materials management software for visibility into student success

## *Dynamic* **Templates**

Configurable template publisher helping to balance educator autonomy with institutional needs

## *Increased* **Utilization**

Increase the utilization of your bookstore and ensure a consistent student experience with the synchronization of information between adoptions and the syllabus

## *Enhanced* **Compliance**

Enable institution-wide consistency and compliance for legal requirements including ADA, HEOA, state and federal regulations

## *Seamless* **Integration**

Ensure consistency between course material adoptions and course syllabi, automatically upload and share with students via LMS integration

## *Simplified* **Process**

Save educator time, reduce errors, and ensure consistency and academic freedom with the easy to use publishing tool. Establish editable workflow processes to reduce administrative workload
