

SAME-DAY WATER TEST RESULTS

With over 30% of treated waterlines failing to meet the CDC guideline for safe water (≤ 500 CFU/mL)[†], your practice needs to know the water it uses is safe now, not a week from now. The lab that is trusted more than any other brings you Flo™, the most advanced water testing technology available with **same-day test results***.

[†]Study cited in "Treating & Monitoring Dental Water", Compendium of Continuing Education in Dentistry, by Nancy Dewhirst, RDH, BS & John A. Molinari, PhD. Data collected from 22,196 consecutive waterline tests conducted in 2017 by ProEdge Dental Water Labs. All product types provided by dental offices. Averages may not reflect your test results. All Pass/Fail measured against CDC's ≤ 500 CFU/ml standard. *Results are provided the same day water samples arrive at ProEdge Dental Water Labs.

THE BRAND NEW

Unlike traditional testing methods, Flo™ requires no incubation time. Instead, it uses laser technology to identify bacteria cells, providing results in minutes instead of days or weeks like other lab tests. That means faster remediation, safer care for every patient, and no more sleepless nights. Check waterlines off your list of worries with Flo™ Water Testing Service Kits.

- › Same-day water test results*
- › 3rd-party laboratory verification of CDC compliance
- › The most advanced & accurate water analysis available
- › Overnight return shipping included!
