

How safe are your waterlines?

Test to see if your water is CDC compliant.

QuickPass®
IN-OFFICE DENTAL WATER TEST

Bring clarity to your practice.

QuickPass®. More reliable. More cost-effective.

With over 30% of treated waterlines failing to meet the CDC standard for safe water (≤ 500 CFU/mL)*, testing is the key to protecting your patients and practice! The QuickPass® In-Office Dental Water Test is more reliable, quicker, and easier to read than any other in-office dental water test.

 The only in-office water test designed for dentistry.

 Quick 48 – 72 hour incubation.

 Includes germicidal neutralization for greater reliability.

 Free consultations to help improve results.

 Bacteria grows red for easy reading.

*Study cited in "Treating & Monitoring Dental Water", Compendium of Continuing Education in Dentistry, by Nancy Dewhirst, RDH, BS & John A. Molinari, PhD. Data collected from 22,196 consecutive waterline tests (R2A, heterotrophic plate count tests) conducted in 2017 by ProEdge Dental Water Labs. All product types provided by dental offices. Averages may not reflect your test results. All Pass/Fail measured against CDC's ≤ 500 CFU/ml standard.
