

Tips for Scheduling Your Prometric Exam

- + Online testing is available for SIE, S6, S7, S63, S65, and S66.
- + You will need your Assigned ID Number to schedule an appointment.
- + Not sure if onsite or online is for you? View our pros and cons [recap](#).
- + After you decide how you want to take your exam, [schedule your exam](#) at least two weeks before you'd like to take it, if possible.

AT A GLANCE

Testing Onsite at a Prometric Center	Testing Online from Home
Testing Centers are open nationwide. Check scheduling availability here .	Appointments are available every day, including non-business hours.
The day before your exam, check the Prometric site for unexpected closures.	This two-minute Prometric video offers a good idea of what it's like to test remotely.
Social distancing practices will be enforced. Candidates must wear a mask.	Run a system check and download the app before scheduling.
Do not bring personal items. There will be a pocket check.	Know how to disable pop-up blockers and/or third party antivirus software.
Calculator and scratch paper will be provided vs. only onscreen for online testing.	No dual monitors. Have the right camera, (you can use a laptop camera) and maybe a mirror.
Plan to arrive 30 minutes ahead of your assigned time. Check-ins can be lengthy.	Check in from a quiet, uncluttered space 30 minutes in advance of your exam time.
You can move back and flag questions for review. Online testing is forward-moving only.	Wired internet connections are recommended; internet usage by hotspots could cause test disruptions.
