

The Path to Protection: License Checklist

Becoming a Licensed PWA Member

1- Complete the Application Form [here](#)

Submit your [application](#) to us, and the license process begins! We'll review your details to see if you'd be a good fit for the community. No payment is required at this time.

You can also choose whether or not you'd like to speak with one of our PWA Coaches. They can answer any questions you have about licensure, and discuss payment options.

2- Sign the License Agreement & Choose Your Payment Plan

We want to make protection affordable to all holistic health practitioners. We'll work with you to find a plan that suits your needs. For example, you can choose to pay for licensing over 24 months for only \$49.95/month.

We'll also send you an official License Agreement at this point — all we need is your signature and your \$99 application fee, then you're on the path to protection!

3- Verify Your Qualifications & Complete a Background Check

We'll need a few documents to confirm your training & certifications and prepare your background check. You'll receive an email that will walk you through the process to complete this step.

4- Complete the PWA License Course

The self-guided License Course is where you will become thoroughly educated in the basics of licensure, including the dos and don'ts of providing services under your PWA license. You'll be asked to complete a short quiz at the end of the course to obtain your license.

5- Welcome to the Community!

Once you pass the course, you're now an officially licensed team member of the PWA! You'll receive your designed license and wall certificate, which include your license ID number.

You will also receive your customizable profile in the [PWA Practitioner Directory](#) to promote your services, attract new clients & network with other provider members.
