

WYTE is the one-stop-shop solution for in-house entrepreneurship.

We provide software-development, design, business validation from one source and power it up by true entrepreneurs. At WYTE, everybody is a founder.

Combining resources redefines efficiency in innovation ventures and achieves better results. Externalising validation and implementation allows to drive innovation independent of daily business.

How it works: Your digital success story

By the way, we got a cool track record in machine learning, cyber security, blockchain technology and fancy design stuff.
