Experience the Power of a Multi-Cloud – with Hands-On Training!

See real-world outcomes to moving to multi-cloud infrastructure:

- Dramatically increased employee and IT productivity through simplification and automation
- Delightful customer experiences and dramatically faster development and deployment of technology
- Paired with cost and infrastructure reductions

CAS will provide executives and technical staff a complete multi cloud architecture (MCA), discuss workload placement, best practices on private, public and hybrid clouds, and provide an update on how Nutanix is a critical component in an overall private and hybrid cloud transformation.

Nutanix will then provide HANDS-ON training for technical staff on their aspect of the overall hybrid cloud reference architecture.

Join us to learn about:

- Key capabilities required to build out a successful hybrid cloud strategy
- How to determine which applications should be placed where – public, private or hybrid
- How AI/ML-driven lifecycle management and simplification ensures ideal customer and employee experiences
- Results of consolidation practices to harvest insights from data, while staying compliant
- Instructor-lead, hands-on education that shows you how it all comes together

Free yourself from the complexity and costs of legacy infrastructure. Learn from industry peers, customers and partners as they share their cloud journey experience.

- Get a simple, cogent hybrid cloud strategy in 30-60 minutes
- See the latest from Nutanix as a critical component of a multi-cloud architecture (and latest from Nutanix .NEXT)
- Learn firsthand how to configure, manage and scale your infrastructure
- Manage storage, networks and VMs, track performance, and more!

October 28, 2020

**10:00 a.m. to
1:00 p.m.**

AGENDA

10:00 – 10:30 AM

Welcome and check in

10:30 – 11:15 AM

CAS Multi Cloud
Architecture

- Workload placement guidance
- Outcomes from projects leveraging Nutanix as private cloud

11:15 – 11:30 AM

Nutanix: the standard
for private cloud

- HCI in context of hybrid cloud
- .NEXT Conference Announcements

11:30 AM – 1:00 PM

Hands-on live education: how to run
Nutanix private cloud

*Feel free to forward
