

# #013 : Next Generation Optimization

## A View from the Supply Chain Perspective

### What Does the Supply Chain Do ?

In France 

**€420  
Billion**

Total Value of  
Goods Moved  
Annually

**8-12  
%**

Expenses as  
Percentage  
of Sales

**1.7  
Million**

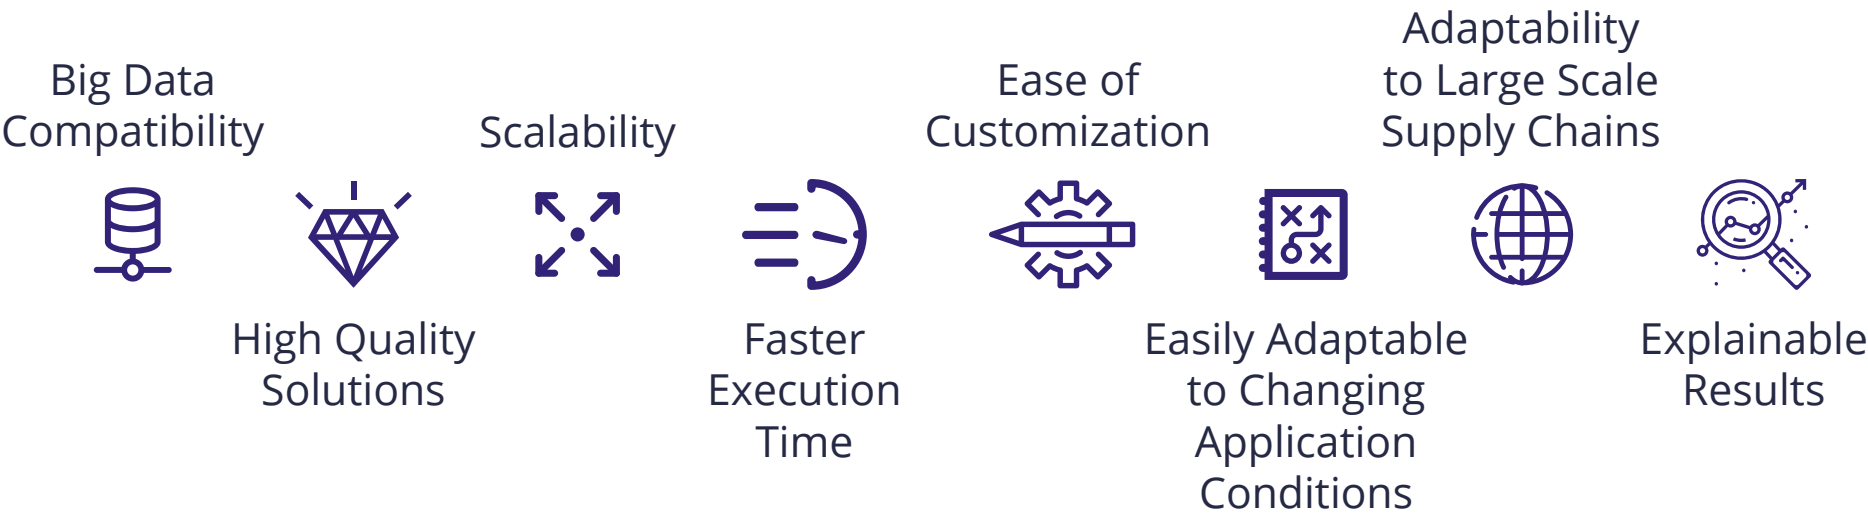

Direct  
Employment

**126  
Million\***

Total Annual Green  
House Gas Emission  
(in tonnes)

With such enormous impact, Optimized operation becomes necessary.

### Needs of Current Optimization Methods
