

Who We Are

M2GEN is seeking people who are passionate about making a difference in the lives of cancer patients and who want to join a science-focused and purpose-driven team. In order to be a leader in creating and delivering health informatics solutions through evidence-based approaches to predict and meet the needs of cancer patients, we need an all-star team. Be part of the cure by joining M2GEN's team and impacting the future of cancer care.

We are a fast-growing company and if you are interested in data, science, or medicine and want to help us make precision medicine a reality, review our current open positions and apply today. <https://www.m2gen.com/>

What You Will Do

As a Clinical Abstractor I, you will be responsible for rapid data abstraction, data management and data analysis in the ORIEN & M2GEN Data Systems in compliance with ORIEN & project-level guidelines consistent with the American College of Surgeon's Commission on Cancer accreditation program and other mandated reporting requirements. You will also be responsible for data retrieval, data comprehension and data integration in the full spectrum of all disease sites of cancer (Diagnosis; Clinical and Pathological Staging; SEER Summary Staging and Treatment Coding and classification). Training of M2GEN and ORIEN Member Site abstraction staff may be required. Some business travel may be required

What You Definitely Need

- ASSOCIATE'S DEGREE in Biology, Biomedical Sciences, Public Health, Health Sciences, Epidemiology, Computer Science, or other related field.
- Must be a Certified Tumor Registrar (CTR)
- Minimum one (1) year or more experience in analyzing, coding and abstracting medical records
- One (1) year or more experience working with a computerized cancer registry database
- Experience utilizing database technology and EMR (Electronic Medical Records) system
- Minimum one (1) year or more working knowledge of medical technology
- Minimum one (1) year or more working with Microsoft Office and other PC database applications

Technical qualifications, including knowledge of the disease process, diagnostic methods and procedures, composition of the health record, data interpretation, and statistical and analytical skills. Skilled in the use of the following standardized coding and classification sets: International Classification of Diseases for Oncology (ICD-O), Surveillance, Epidemiology, and End Results Program (SEER) Multiple Primary and Histology rule set, Surveillance, Epidemiology, and End Results Program (SEER) Hematopoietic and Lymphoid Neoplasm Coding Manual and Database, Surveillance, Epidemiology, and End Results Program (SEER) RX - Interactive Drug Database, American Joint Committee on Cancer (AJCC) TNM direct staging of all cancer sites, Facility Oncology Registry Data Standards (FORDS), and the ORIEN & Avatar Data Acquisition Manual.

It Would Be Great If You Also Had

- **Minimum one (1) year or more cancer registry abstracting experience in an American College of Surgeon's Commission on Cancer NCI designated or teaching/research approved program**
- **Oncology specific technology**
- **Strong typing skills and demonstration of strong verbal, written, listening and analytical skills**
- **Ability to work with minimal supervision in a quickly changing environment**
- **Relevant experience as outlined above in research, academic, scientific or healthcare community**

Who You Contact

Liza Bryant, PHR, Director, Human Resources, Liza.Bryant@m2gen.com / Full job description available upon written request to Liza.

M2GEN, in accordance with Equal Employment Opportunity Policy GP-08, does not discriminate on the basis of race, color, religion, sex, sexual orientation, age national origin, marital status, citizenship, physical or mental disability, veteran status, or any other protected trait.
