SCULPTURE MESH TASK CHAIR

The elegant Sculpture office chair has been designed to support the user's movements in their working environment by providing optimal movement and support throughout the day. With its high-quality components, floating technology and stylish breathable mesh fabric, Sculpture is perfect for everyday use in a busy office environment, ensuring correct posture and ergonomics.

Model shown below: REM-ER10.

Specification: Black mesh, black 4D arms and a polished aluminium base.

ACTIVE AND SUPPORTIVE SEATING

Engage the tilt lock function for a supportive ergonomic seating position, or unlock the tilt lock function and adjust the tension to allow for a balanced active seating, which promotes blood flow and reduces muscle deterioration.

LUMBAR SUPPORT

Double mesh back and prominent lumbar support can be adjusted to 3 different height locking positions to enable the correct lumbar support.

ADJUSTMENTS

Easy to use mechanism ensures simple navigation around the chair. Fully synchronised seat and back angle allows free flow movement together with a sliding seat depth adjustment for active and supportive seating.

5 YEAR GUARANTEE

All chairs come with a 5 year guarantee.

ADJUSTABLE HEADREST

Angle and adjust the height of the headrest to correctly support the head and neck to maintain good posture.

BREATHABLE MESH

Heavy duty flexible mesh ensures superior support as well as a breathable surface to guarantee optimal levels of comfort for the user.

ADJUSTABLE GEL ARMS

4D adjustable gel arms with multi-functional alterations, such as inward and outward pivots to provide tailored comfort as well as forward and backwards sliding.

HEAVY DUTY STAR BASE

Heavy duty polished aluminium base for added stability and strength to the chairs structure.

CORE PERCHING STOOL RANGE

The Core perching stool range has been designed to provide a solution for both work that requires alternate sitting and standing positions throughout the day as well as sit/stand desk users who alternate between sitting, standing and perching to keep active in the office.

The Core range encourages movement through the pivot action which helps engage and strengthen the core muscles to help maintain correct posture. The additional movement not only helps with posture but can also boost productivity and concentration to keep users focussed for longer periods of time due to increased blood flow around the body.

Model shown below: REM-SS20-GREY

Specification: Light grey fabric seat, black base.

DURABLE FABRIC SEAT

Durability is ensured with our 10 year fabric seat cover or 130,000 rub warranty.

ACTIVE SEATING

Pivot action encourages the core to engage to keep the chair stable, which helps to strengthen the muscles and keep correct posture.

5 YEAR GUARANTEE

All chairs come with a 5 year guarantee.

MOLDED FOAM SEAT

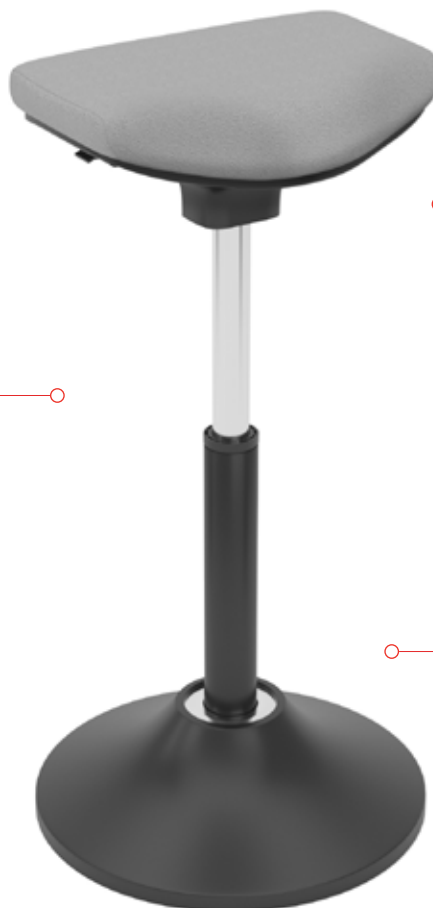

The foam seat has been ergonomically designed to follow the form on the body to increase comfort.

ADJUSTMENT

Easy to use mechanism ensures simple navigation around the chair. Height adjustment can be found under the seat to adjust the height to the correct perching position.

DUAL PIVOT ACTION

The adaptive dual pivot action situated in the base and under the seat allows easy freedom of movement from one space to another as well as a floating seat movement.

CORE PERCHING STOOL RANGE

FABRIC SEAT FINISHES

Core Plus available in light grey and Core available in black.
