JAVELIN BENCH DESKING SYSTEM

The Javelin bench desking system is a stylish, comprehensive and flexible solution for today's IT dependent office environments. Designed to adapt easily to the ever changing needs of any business, it has a height settable frame from 725mm-810mm future proofing your investment, as well as sliding tops allowing access to the large cable tray for quick and easy cable management.

The simplicity and sophistication of Javelin's design suits a wide range of interiors and office environments. Available with a range of worktop sizes, shapes and finishes it allows for flexible workspaces that meet the needs of organisations and the individual.

The deep cable trays can accommodate large quantities of electric and data cables. Individually fused plug and play electrical four way blocks enable quick installation without the need for a qualified electrician.

FEATURES

• Height settable legs to suit people of all heights
• IT friendly with under desk concealed cable management
• Sliding desk tops for simple installation of electricals and data
• Unique and stylish design with colour enhanced features

JAVELIN BOARDROOM AND MEETING

The Javelin boardroom and meeting solutions are stylish, quality-boasting and functional, bringing class and sophistication to any office environment. Designed in-house, Javelin takes its inspiration from the Ancient Greek Olympic Games era. True to its name, this contemporary style bench meeting table sits on slim and elegant legs, which are shaped like a javelin. It offers a purpose built or free-standing cable management system and various power and data options.

FEATURES

- Height settable legs to suit people of all heights
- IT friendly with under desk concealed cable management
- Unique and stylish design with colour enhanced features
- Optional built in or free standing power modules available

AUTONOMY PRO ELECTRIC SIT/STAND

The Autonomy Pro height adjustable desk helps keep you active at work or in the home office. Raise and lower the desk from 640mm–1300mm at the touch of a button - one of the largest variable movements on the market.

The digital display and controller is equipped with an up and down button, a home button set at 720mm and two programmable memory set buttons. The controller operates the movement of the three part telescopic legs at a rate of 30mm per second. The Autonomy Pro desk can lift evenly up to an incredible 130kgs.

The safety features include an anti-crush sensor which switches off the control when an obstruction is detected. There are no exposed moving parts as there are two independent motors (one inside each leg).

FEATURES

- Evenly lifts up to 130kgs at a rate of 30mm per second
- Three part telescopic leg for extended range
- Twin motor frame (one motor in each leg)
- Anti-crush feature
- No exposed moving parts
- Two programmable memory set buttons
- 'HOME' button set at 720mm
- Power save feature

AUTONOMY PRO RISE ELECTRIC SIT/STAND

Autonomy Pro Rise can be used for a multitude of purposes including a podium, a reception desk, in breakout areas or as hot desking and it uses the latest technology to adjust the height from 710mm to 1355mm (including desktop).

The desk can be specified in 3 different shapes and the static maximum load weight is 50kg, which is more than enough for all of your hot desk, presentation or reception requirements. This single column sit/stand desk on castors is ideal for small spaces, including home working, and allows simple and convenient transportation from area to area without difficulty.

The Autonomy Pro Rise is controlled via a small panel and has 4 memory settings – so it can be easily set and changed in order to suit your most common needs.

FEATURES

- Evenly lifts up to 50kgs at a rate of 30mm per second
- Three part telescopic leg for extended range
- No exposed moving parts
- Height range 710mm-1355mm
- Four programmable memory settings
- Operated via control panel with LCD display
- Supplied on castors
- Power save feature

AUTONOMY PRO BOARDROOM AND MEETING

Autonomy Pro meeting solutions are ideal for group meetings as they enhance the collaboration and wellbeing in the workplace. Sit/stand meeting tables help to prevent back and neck pain as well as allowing better blood flow throughout the body which subsequently helps the employees to be more active and energised throughout the day. Autonomy Pro meeting solutions offer a purpose built or free-standing cable management system and various power and data options.

FEATURES

- Evenly lifts up to 130kgs at a rate of 30mm per second
- Three part telescopic leg for extended range
- Twin motor frame (one motor in each leg)
- Anti-crush feature
- No exposed moving parts
- Two programmable memory set buttons
- 'HOME' button set at 720mm
- Available in a wide range of size and shape options
- Brace bar for added stability

LIBERTY BUDGET ELECTRIC SIT/STAND

The Liberty electric height adjustable desk helps keep you active and productive at work or in the home office. Raise and lower the desk at the touch of a button from 715mm–1190mm.

The digital display and controller is equipped with an up and down button and four programmable memory set buttons. The controller operates the movement of the two part telescopic legs at a rate of 30mm per second. For low energy consumption the desk switches to sleep mode after a period of inactivity. The Liberty desk can lift evenly up 80kgs.

The Liberty electric sit/stand desk is unique in its affordable price point and quality. The Liberty desk is a cost efficient option available for sit/stand desking, revolutionising the way people in the UK work.

FEATURES

• Evenly lifts up to 80kgs at a rate of 30mm per second
• Two part telescopic leg for extended range
• Power save feature
• Single motor frame with external moving part
• Four programmable memory set buttons
• Height range 715mm–1190mm
• Anti-crush feature
• Anti-lowering collision (sensitivity adjustment)
• Anti-rising collision (sensitivity adjustment)

RAIZ-IT 600MM DEEP MANUAL SIT/STAND

The Raiz-It manual height adjustable desking solution is cost-efficient and eco-friendly as it's operated by a crank mechanism, meaning that it doesn't require any electricity to change its position from seated height to standing height.

Raiz-It's maximum load weight is 70kg and the desk's height can be adjusted between 730mm up to 1155mm (including desktop) so finding a comfortable position to sit, stand or perch is easy to achieve.

The desk has two-part telescopic legs and can also be specified in an array of stylish finishes including oak, walnut, and slate. The frame itself is available in white or silver.

FEATURES

- Maximum load weight 70kg
- Two part telescopic leg
- Manual crank mechanism with removable handle
- Solid 22kg metal frame for stability
