### Sesame Solar Mobile, Drive-Up COVID-19 Vaccination & Testing Solution would work as follows :

- There would be two lines, one for Covid-19 Vaccination and one for Covid-19 testing with appointments being served first. These appointments can be easily made through the Sesame Solar asynchronous app.
- For appointments the Patient fills out an online form from their mobile device, laptop, or desktop, and is assigned a unique Patient identifier. The Patient would drive up to the Sesame Solar Mobile, Solution at the assigned time. Staying in their vehicle helps to minimize contact.
