14) Business Transfers: We may share or transfer information we collect under this privacy policy in connection with any merger, sale of company assets, financing, or acquisition of all or a portion of our business to another company. You will be notified via email and/or a prominent notice on the Services if a transaction takes place, as well as any choices you may have regarding your information.

4. HOW WE STORE AND SECURE INFORMATION WE COLLECT

Information storage and security

We use industry standard technical and organizational measures to secure the information we store.

We make sure that personal information is only accessible by those who need access to do their job and that they are properly authorised. That means we keep logs of who has access to personal information, we limit the amount of people that have access and we make sure that personal information can only be read, copied, modified or removed by properly authorised staff. We monitor internal activity to ensure the safety and accuracy of personal information.

Aproove staff is required to conduct themselves in a manner consistent with the company's guidelines regarding confidentiality, ethics, and appropriate usage of personal information. Staff is required to sign a confidentiality agreement.

During an upload, while it is stored on our servers and during a download, Content is encrypted and only sent over a secure connection (https). The servers we use to store your Content for you are GDPR compliant and secure.

While we implement safeguards designed to protect your information, no security system is impenetrable and due to the inherent nature of the Internet, we cannot guarantee that information, during transmission through the Internet or while stored on our systems or otherwise in our care, is absolutely safe from intrusion by others.

If you use our server or data center Services, responsibility for securing storage and access to the information you put into the Services rests with you and not Aproove. We strongly recommend that server or data center users configure SSL to prevent interception of information transmitted over networks and to restrict access to the databases and other storage points used.

How long we keep information

How long we keep information we collect about you depends on the type of information, as described in further detail below. Aproove retains your personal information as long as its necessary to provide our Services to you (e.g. upholding your user account), to conduct our business activities and fulfill our legitimate interests, such as providing safe and secure services, to fix bugs and to reach out to you, to comply with applicable laws (e.g. retaining financial information for 7 years for tax purposes) and legal requests and to resolve (legal) disputes. After such time, we will either delete or anonymize your information or, if this is not possible (for example, because the information has been stored in backup archives), then we will securely store your information and isolate it from any further use until deletion is possible.

- *Account information:* We retain your account information for as long as your account is active and a reasonable period thereafter in case you decide to re-activate the Services. We also retain some of your information as necessary to comply with our legal obligations, to resolve disputes, to enforce our agreements, to support business operations, and to continue to develop and improve our Services. Where we retain information for Service improvement and development, we take steps to eliminate information that directly identifies you, and we only use the information to uncover collective insights about the use of our Services, not to specifically analyze personal characteristics about you.
- *Your Content:* The Content you create, use, store or share on our Services is, in principle, retained until you stop interacting with our Service(s), when you delete your Content from the Service(s), when you delete the Service(s) from your device(s) or when you delete your account. Always check out the website(s) or app(s) of the Service(s) you use for specific information. When using WeAproove your Content will be deleted 7 days after initial download, unless you have a WeAproove+ account in which case your Content is stored for the duration of your account and 30 days after the expiration of the account . After this period, a file is automatically deleted from our servers. The personal information that accompanies your Content upload is kept for a maximum of 12 months. Such personal information is only accessible to very few people within Aproove, those that need it to perform their job, for example to provide you with support. When data is older than 12 months, we scrub it from the database, pseudonymise or anonymise it for analysis. Pseudonomising your personal information means that we do not use your email address or IP address for analytical purposes, but create a random pseudonym for both and use that pseudonym instead. That way we don't have to handle directly identifiable personal information, which is privacy-friendly.
- *Managed accounts:* If the Services are made available to you through an organization (e.g., your employer), we retain your information as long as required by the administrator of your account. For more information, see "Managed accounts and administrators" above.
- *Marketing information:* If you have elected to receive marketing emails from us, we retain information about your marketing preferences for a reasonable period of time from the date you last expressed interest in our Services, such as when you last opened an email from us or ceased using your Aproove account. We retain information derived from cookies and other tracking technologies for a reasonable period of time from the date such information was created.

5. HOW TO ACCESS AND CONTROL YOUR INFORMATION

You have certain choices available to you when it comes to your information. Below is a summary of those choices, how to exercise them and any limitations.

Your Choices:

You have the right to request a copy of your information, to object to our use of your information (including for marketing purposes), to request the deletion or restriction of your information, or to request your information in a structured, electronic format. Below, we describe the tools and processes for making these requests. You can exercise some of the choices by logging into the Services and using settings available within the Services or your account. Where the Services are administered for you by an administrator (see "Notice to End Users" below), you may need to contact your administrator to assist with your requests first. For all other requests, you may contact us as provided in the Contact Us section below to request assistance.

Your request and choices may be limited in certain cases: for example, if fulfilling your request would reveal information about another person, or if you ask to delete information which we or your administrator are permitted by law or have compelling legitimate interests to keep. Where you have asked us to share data with third parties, for example, by installing third-party apps, you will need to contact those third-party service providers directly to have your information deleted or otherwise restricted. If you have unresolved concerns, you may have the right to complain to a data protection authority in the country where you live, where you work or where you feel your rights were infringed.

Access and update your information: Our Services and related documentation give you the ability to access and update certain information about you from within the Service. For example, you can access your profile information from your account and search for content containing information about you using key word searches in the Service. You can update your profile information within your profile settings and modify content that contains information about you using the editing tools associated with that content.

Deactivate your account: If you no longer wish to use our Services, you or your administrator may be able to deactivate your Services account. If you can deactivate your own account, that setting is available to you in your account settings. Otherwise, please contact your administrator. If you are an administrator and are unable to deactivate an account through your administrator settings, please contact the appropriate support team.

Delete your information: Our Services and related documentation give you the ability to delete certain information about you from within the Service. For example, you can remove content that contains information about you using the key word search and editing tools associated with that content, and you can remove certain profile information within your profile settings. Please note, however, that we may need to retain certain information for record keeping purposes, to complete transactions or to comply with our legal obligations.

Request that we stop using your information: In some cases, you may ask us to stop accessing, storing, using and otherwise processing your information where you believe we don't have the appropriate rights to do so. For example, if you believe a Services account was created for you without your permission or you are no longer an active user, you can request that we delete your account as provided in this policy. Where you gave us consent to use your information for a limited purpose, you can contact us to withdraw that consent, but this will not affect any processing that has already taken place at the time. You can also opt-out of our use of your information for marketing purposes by contacting us, as provided below. When you make such requests, we may need time to investigate and facilitate your request. If there is delay or dispute as to whether we have the right to continue using your information, we will restrict any further use of your information until the request is honored or the dispute is resolved, provided your administrator does not object (where applicable). If you object to information about you being shared with a third-party app, please disable the app or contact your administrator to do so.

Opt out of communications: You may opt out of receiving promotional communications from us by using the unsubscribe link within each email, updating your email preferences within your Service account settings menu, or by contacting us as provided below to have your contact information removed from our promotional email list or registration database. Even after you opt out from receiving promotional messages from us, you will continue to receive transactional messages from us regarding our Services. You can opt out of some notification messages in your account settings. Please note, you will continue to receive generic ads.

Turn off Cookie Controls: Relevant browser-based cookie controls are described in our section below.

Send "Do Not Track" Signals: Some browsers have incorporated "Do Not Track" (DNT) features that can send a signal to the websites you visit indicating you do not wish to be tracked. Because there is not yet a common understanding of how to interpret the DNT signal, our Services do not currently respond to browser DNT signals. You can use the range of other tools we provide to control data collection and use, including the ability to opt out of receiving marketing from us as described above.

Data portability: Data portability is the ability to obtain some of your information in a format you can move from one service provider to another (for instance, when you transfer your mobile phone number to another carrier). Depending on the context, this applies to some of your information, but not to all of your information. Should you request it, we will provide you with an electronic file of your basic account information and the information you create on the spaces under your sole control.

If you think we have infringed your privacy rights, you can lodge a complaint with the relevant supervisory authority. You can lodge your complaint in particular in the country where you live, your place of work or place where you believe we infringed your right(s). Those countries have different data protection laws in place. However, when we transfer and host data globally, we will make sure that appropriate safeguards are in place in order to ensure your personal information enjoys a similar level of protection as it would within the EEA. As explained under section ‘What parties do we share personal information with’, we sometimes provide personal information with third parties to perform services on our behalf. If we transfer personal information received under the Privacy Shield to a third party, the third party’s use of the personal data must also comply with our Privacy Shield obligations. In such a case we will remain liable under Privacy Shield for any failure to comply by the third party, unless we prove we’re not responsible for the event giving rise to the damage.

Examples of cookie purposes are: your language preferences, logging into an account, remembering login details, controlling when you last accessed our Services and acceptance of the Terms of Service and Privacy Policy. Our website can place these cookies for the following purposes:

1. Functional cookies are used to provide functionalities when using our Service, such as the possibility to set preferences or to remember your previous settings.
2. Analytical cookies are used to optimise our Service. We also use analytical cookies to stop bots and malicious behaviour like spam. When we use analytical cookies, this could include third party cookies, as found in the cookie list. These third party analytical cookies process personal information, which is detailed in the cookie list too.
3. Advertisement cookies are used for commercial, editorial and promotional purposes. With these cookies your internet- and surf behaviour can be followed over various domains and websites. Aproove only checks the (one) website you visited prior to your visit to one of our websites. We do not track the website you

visit after you leave our website. Advertisement cookies are often also placed by third parties to measure the effectiveness of their advertising campaigns and to follow your internet- and surf behaviour over other domains and websites where they have placed a cookie. Aproove does not have access to or control over personal information collected via these cookies or other features that advertisers and third parties may use. Our Privacy Policy is therefore not applicable to these third party cookies and we refer you to third parties' Privacy Statements to read how they handle personal information.

4. Pixel tags or web beacons are a piece of code embedded on the website that collects personal information about users' engagement on that web page. The use of a pixel allows us to record, for example, that a user has visited a particular web page or clicked on a particular advertisement. The pixel also allows us to see from which previous website or channel a user arrived at our website.

We have an extensive cookie list available <https://www.weaproove.com/legals>. Due to the changing nature of our Service, this may result in the cookie list not being fully up to date at times. If you would want to remove certain cookies, or block them from being stored in your browser, it is possible to arrange this through your browser settings for cookies. You can find these settings under the Privacy tab in the Preferences section of most browsers. Here you can specify your cookie preferences or remove cookies. Please note that if you remove or refuse Aproove cookies, the Service might not function in optimal form.
